

# Overall Identity

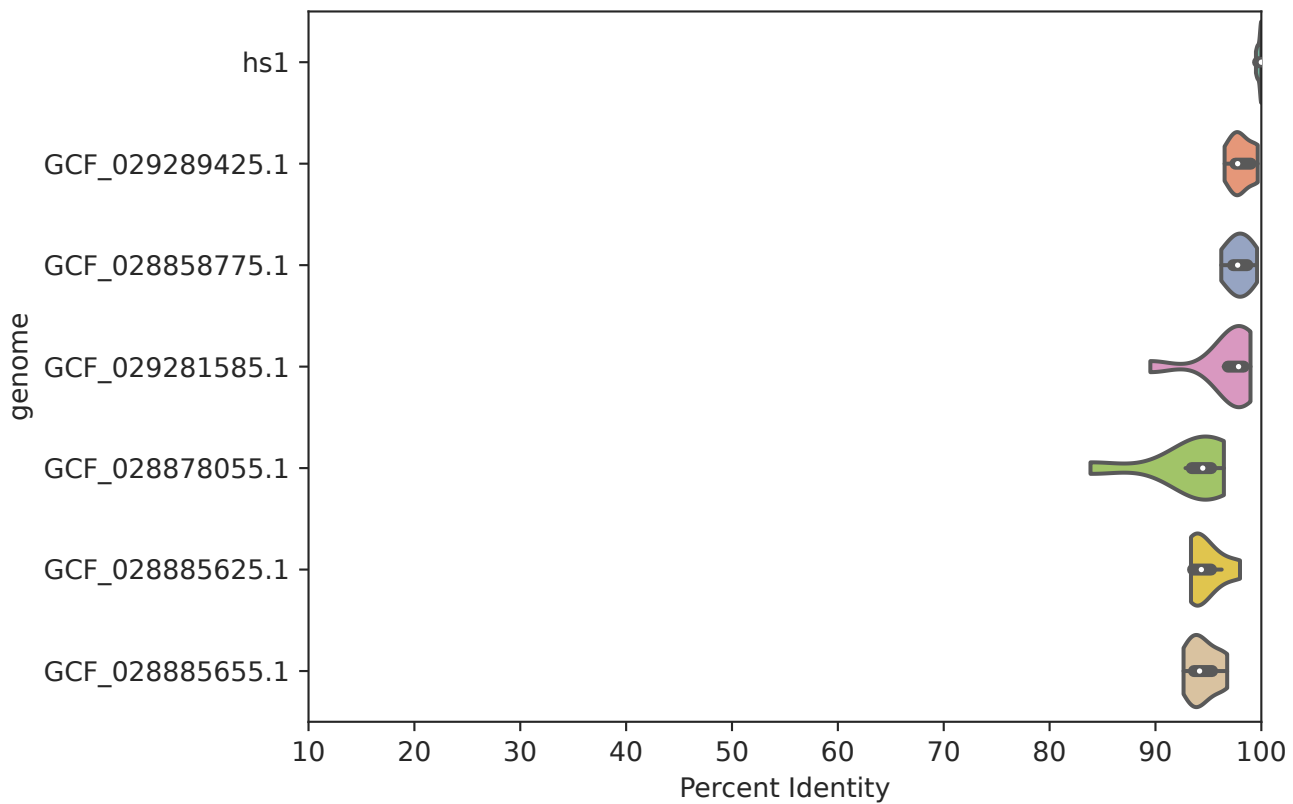

# Identity for biotype protein\_coding

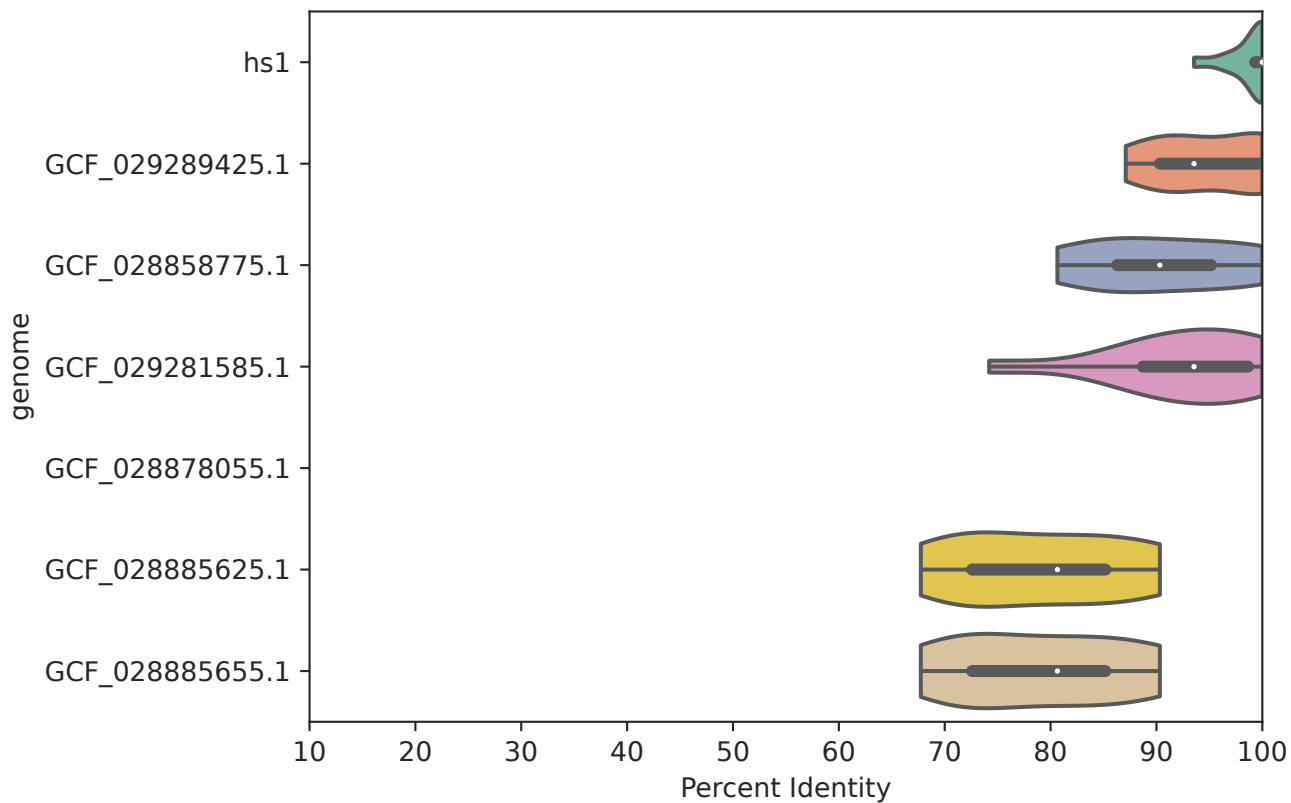

# Identity for biotype IG\_C\_gene

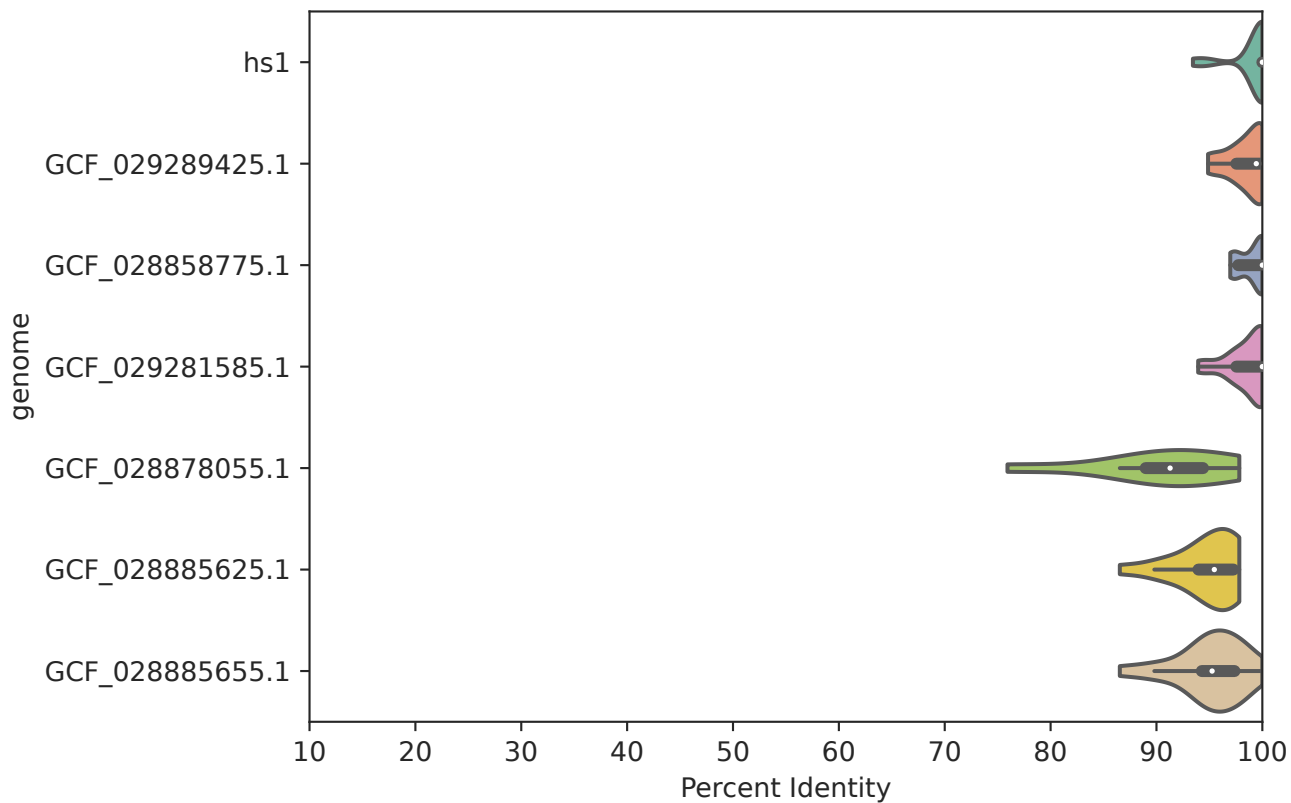

# Identity for biotype IG\_C\_pseudogene

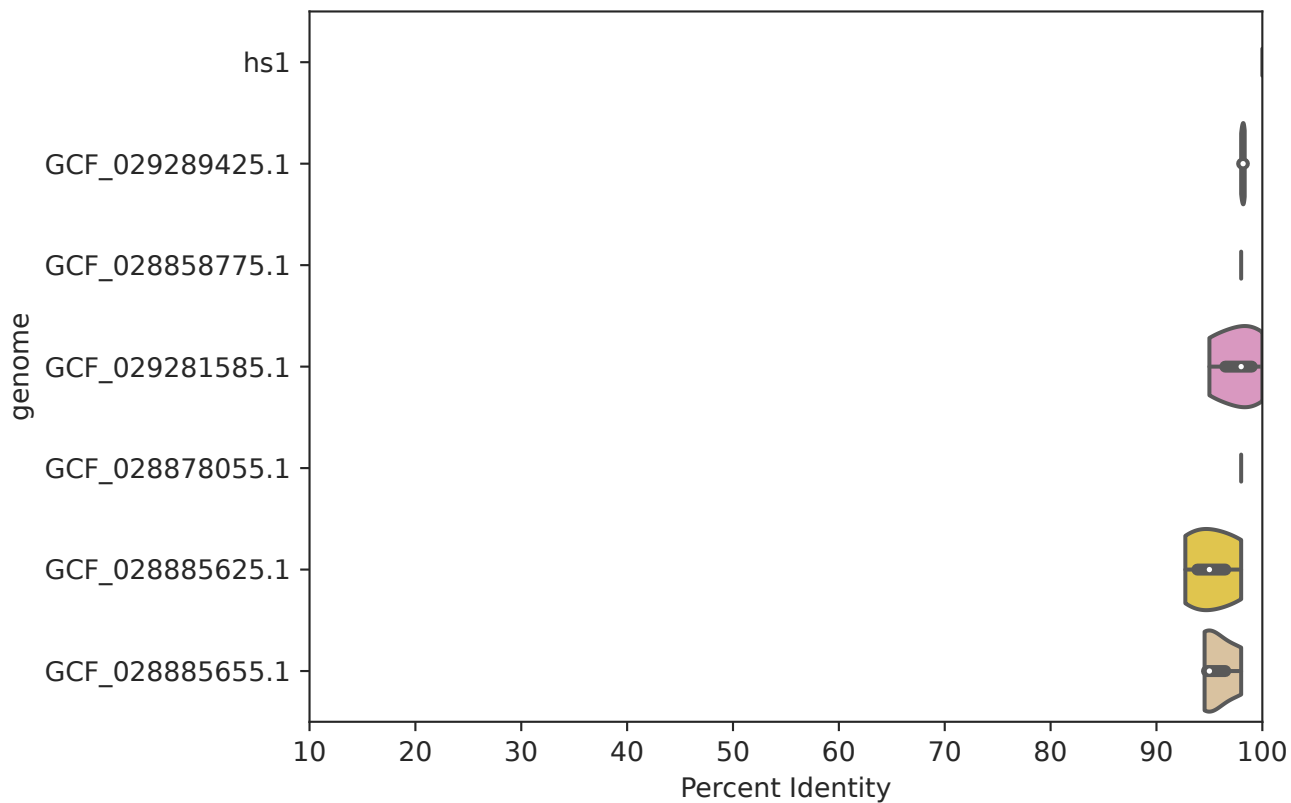

# Identity for biotype IG\_D\_gene

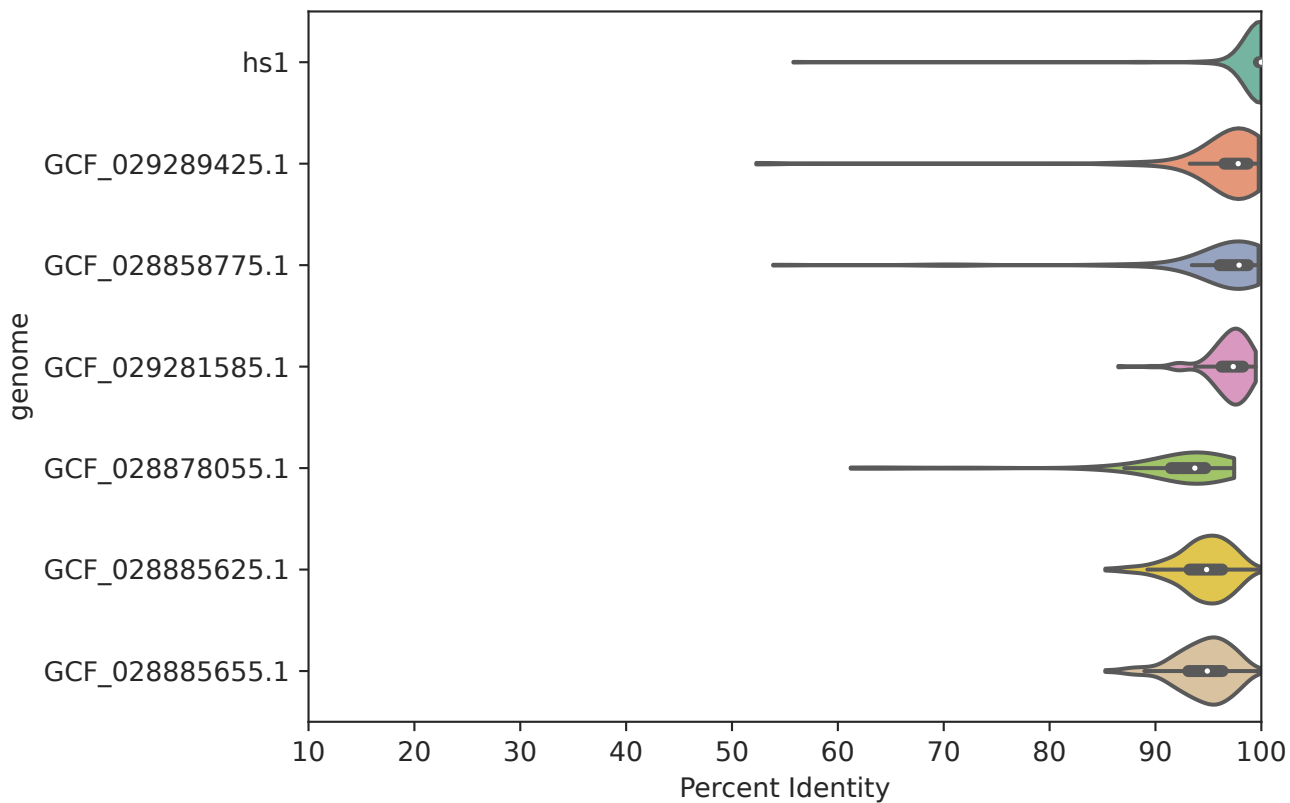

# Identity for biotype IG\_J\_gene

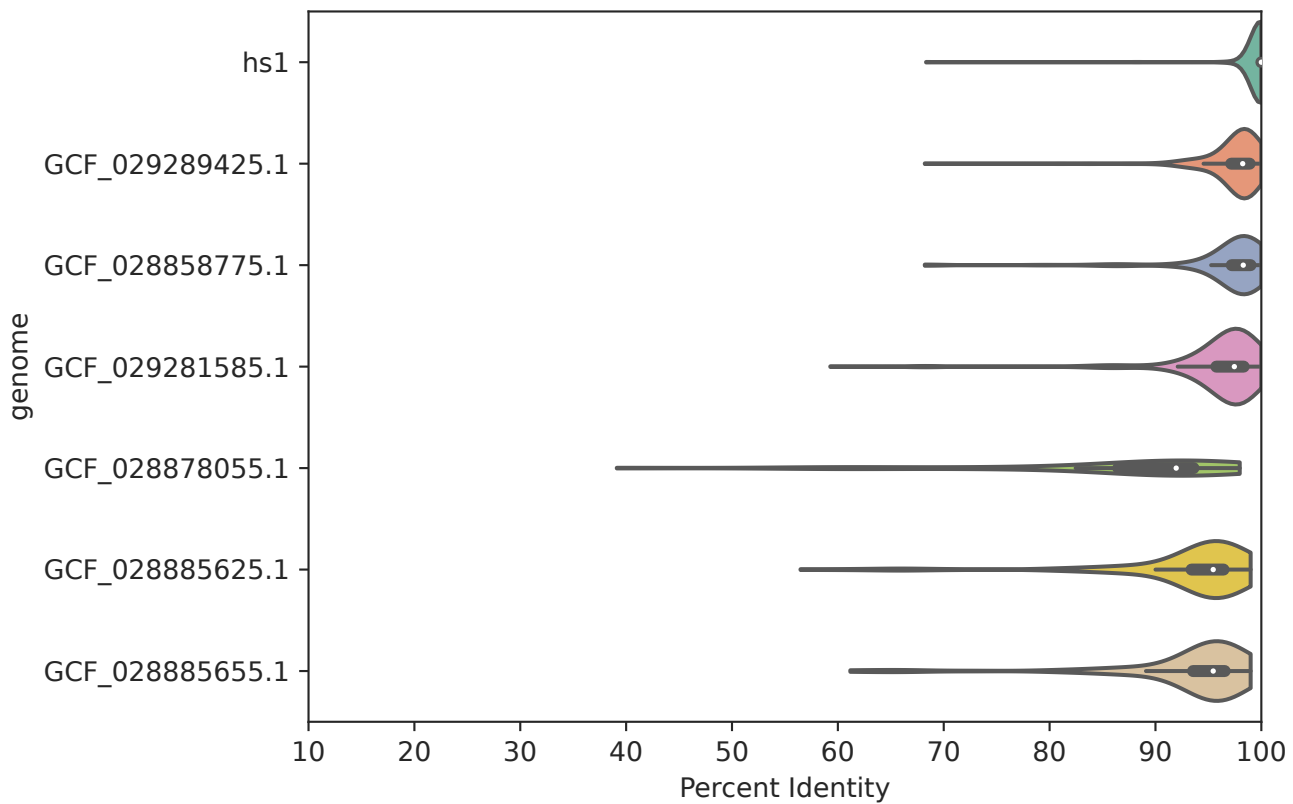

# Identity for biotype IG\_J\_pseudogene

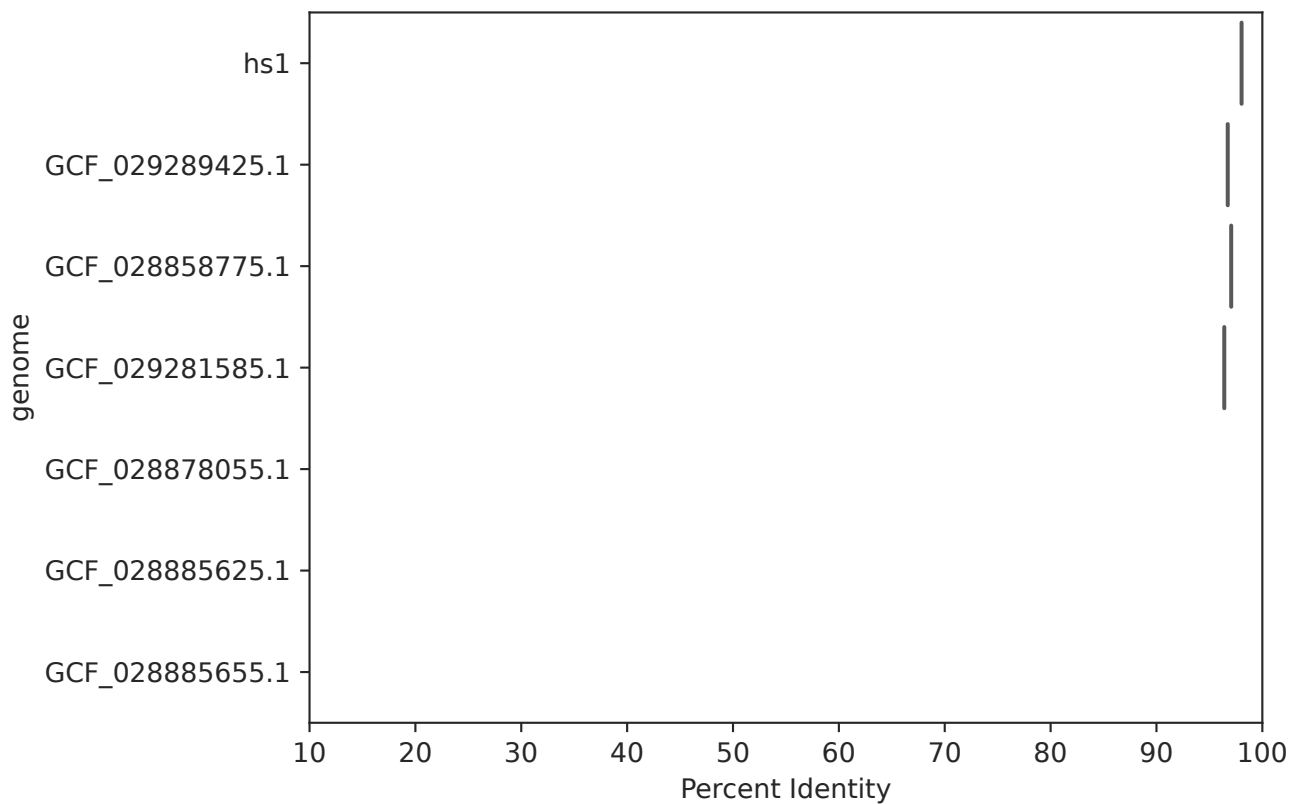

# Identity for biotype IG\_V\_gene

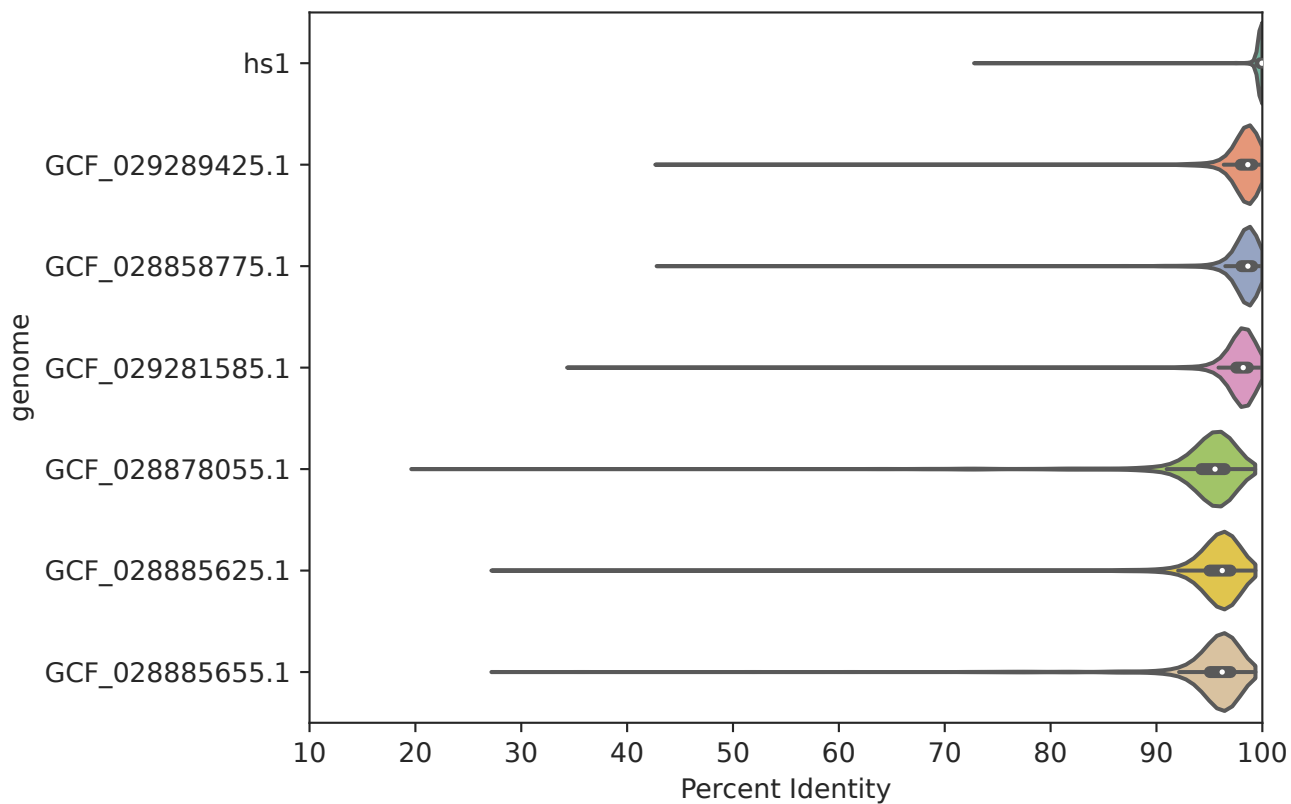

# Identity for biotype IG\_V\_pseudogene

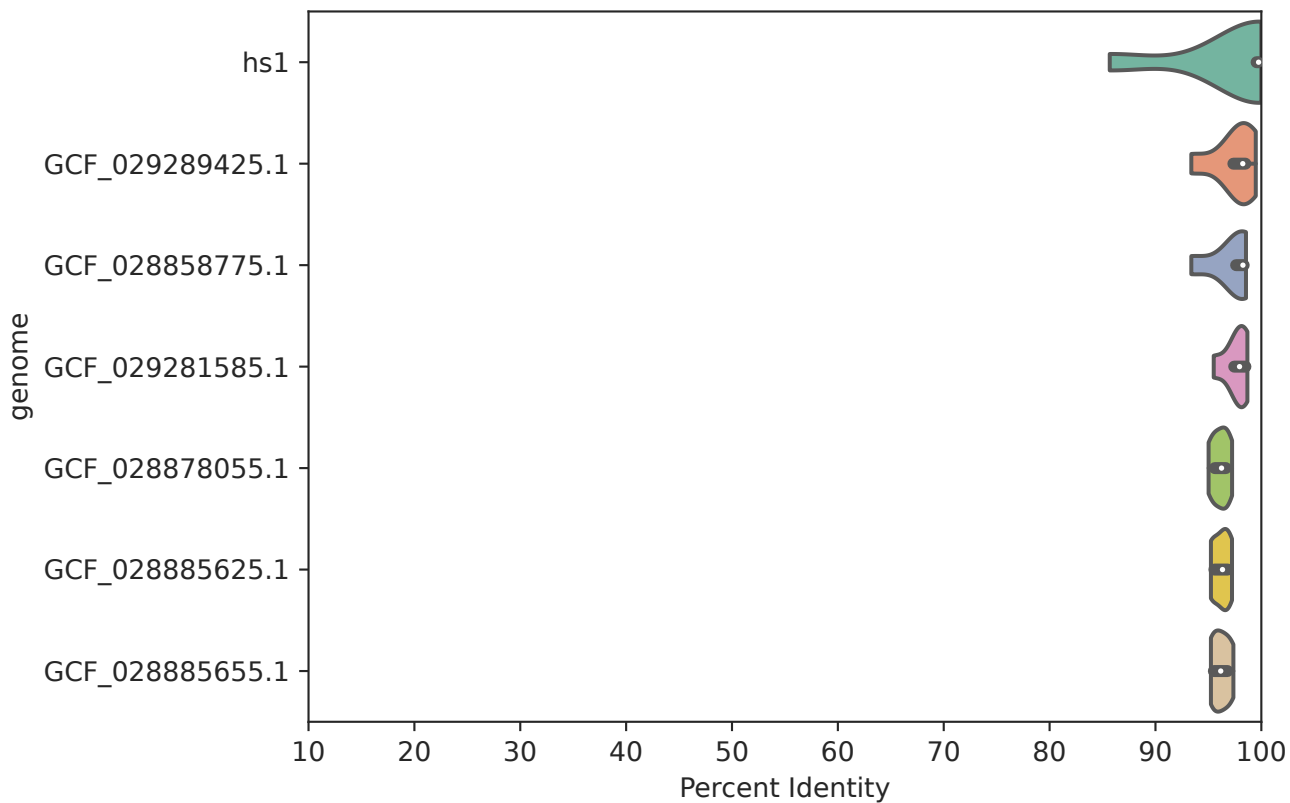

# Identity for biotype IG\_pseudogene

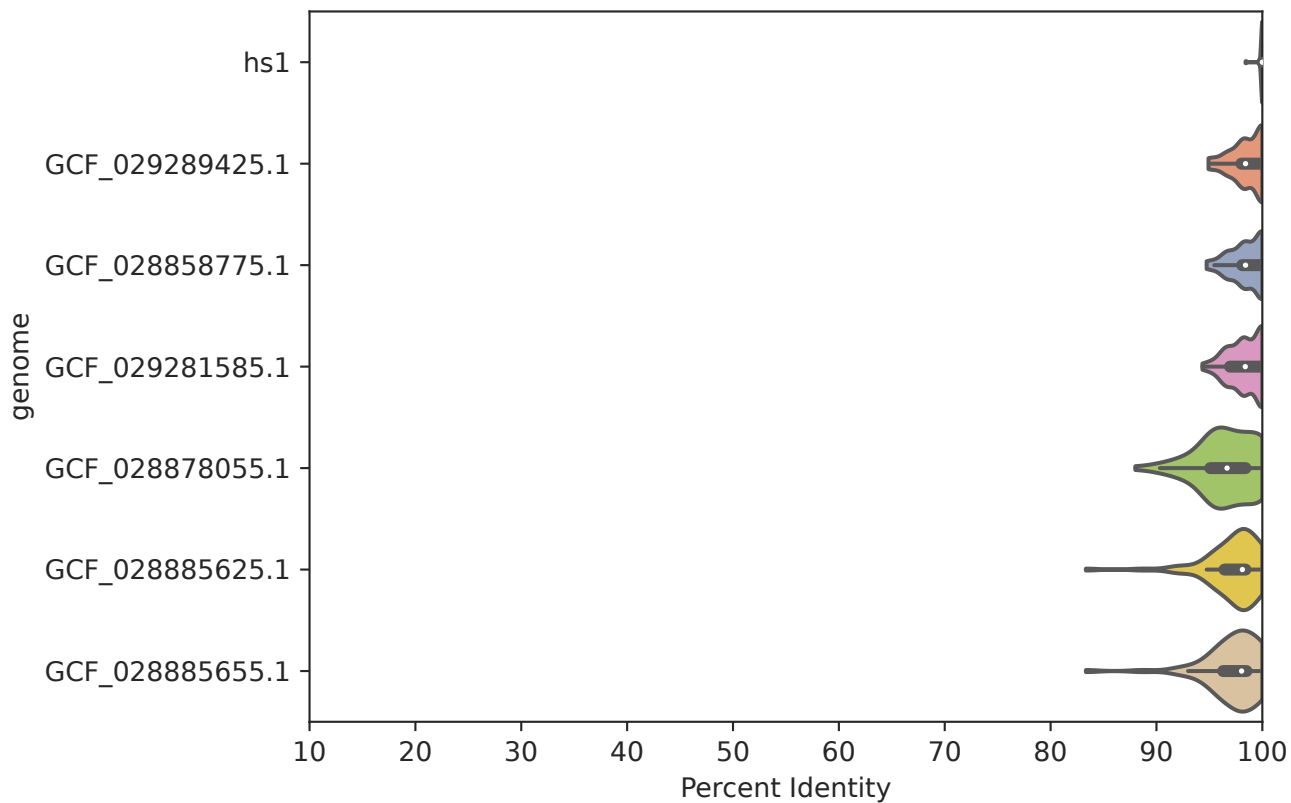

# Identity for biotype TEC

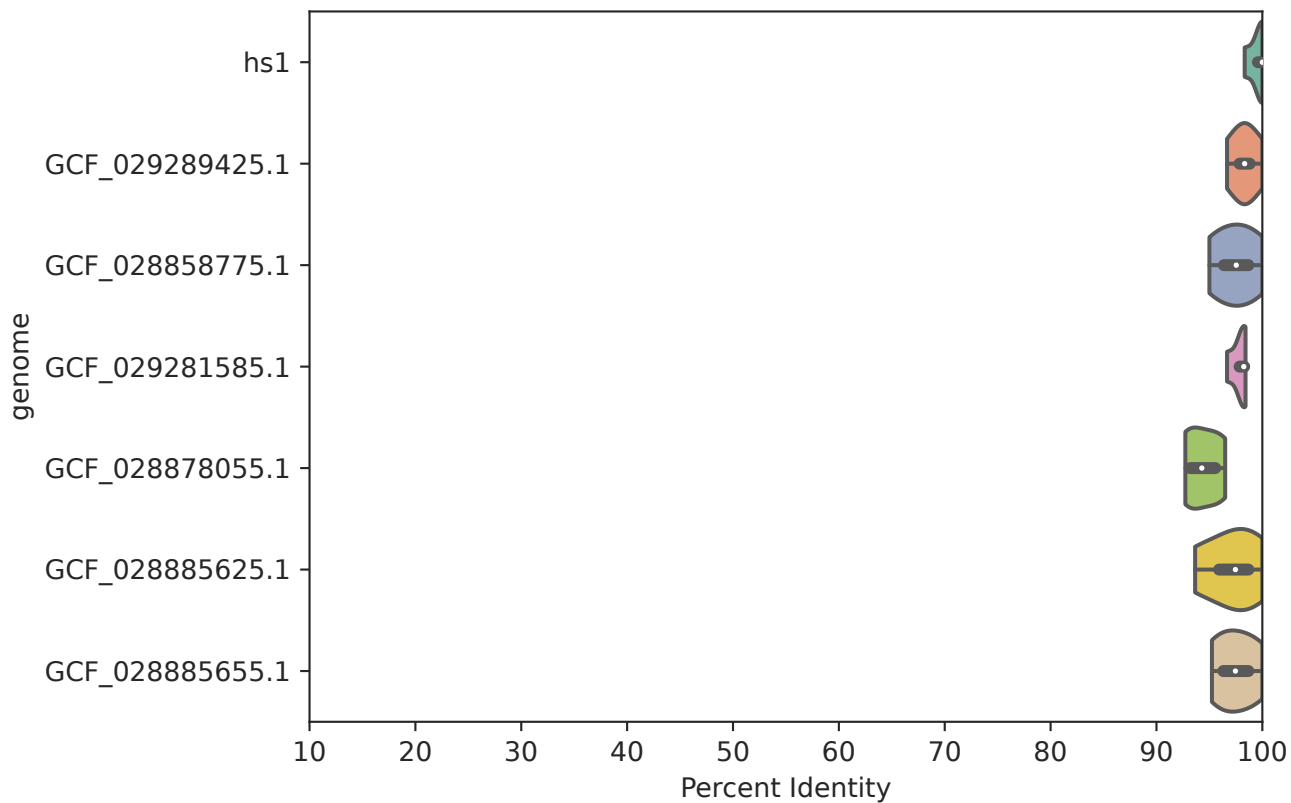

# Identity for biotype TR\_C\_gene

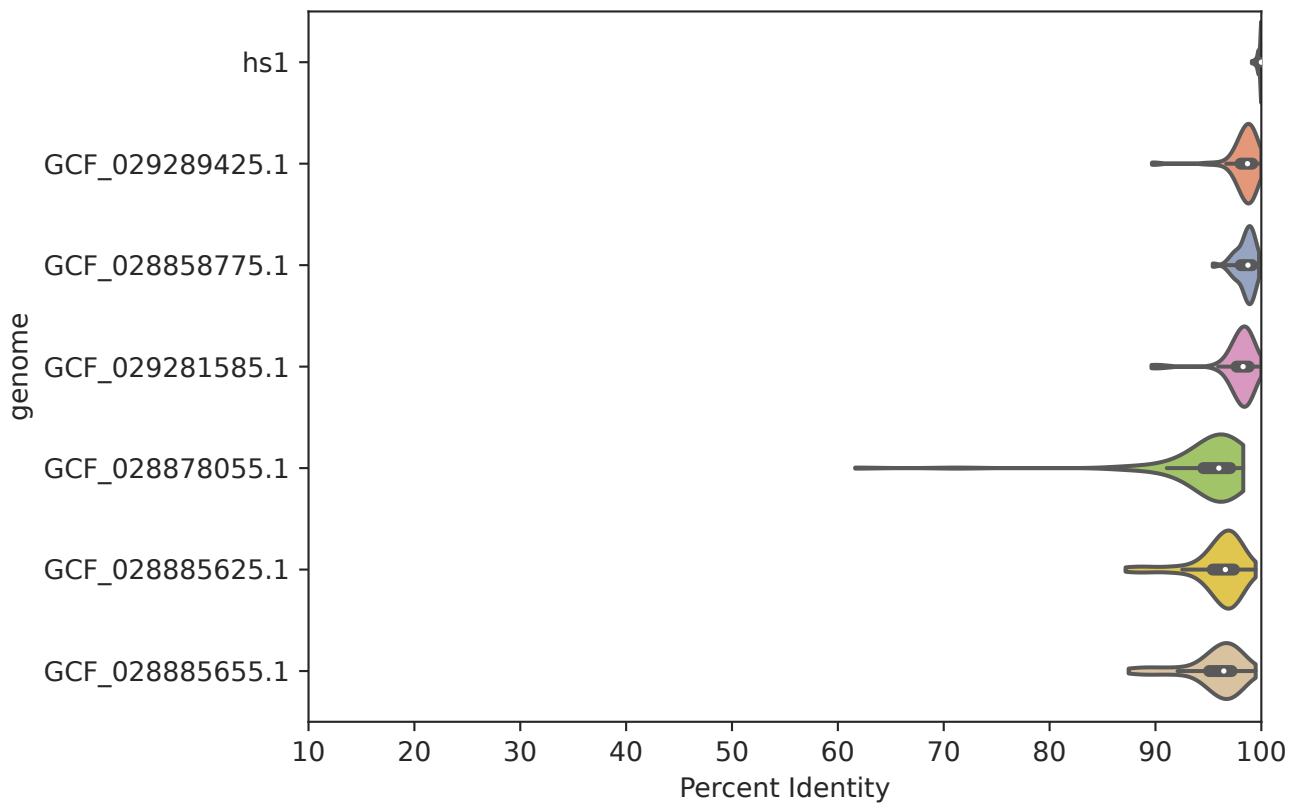

# Identity for biotype TR\_J\_gene

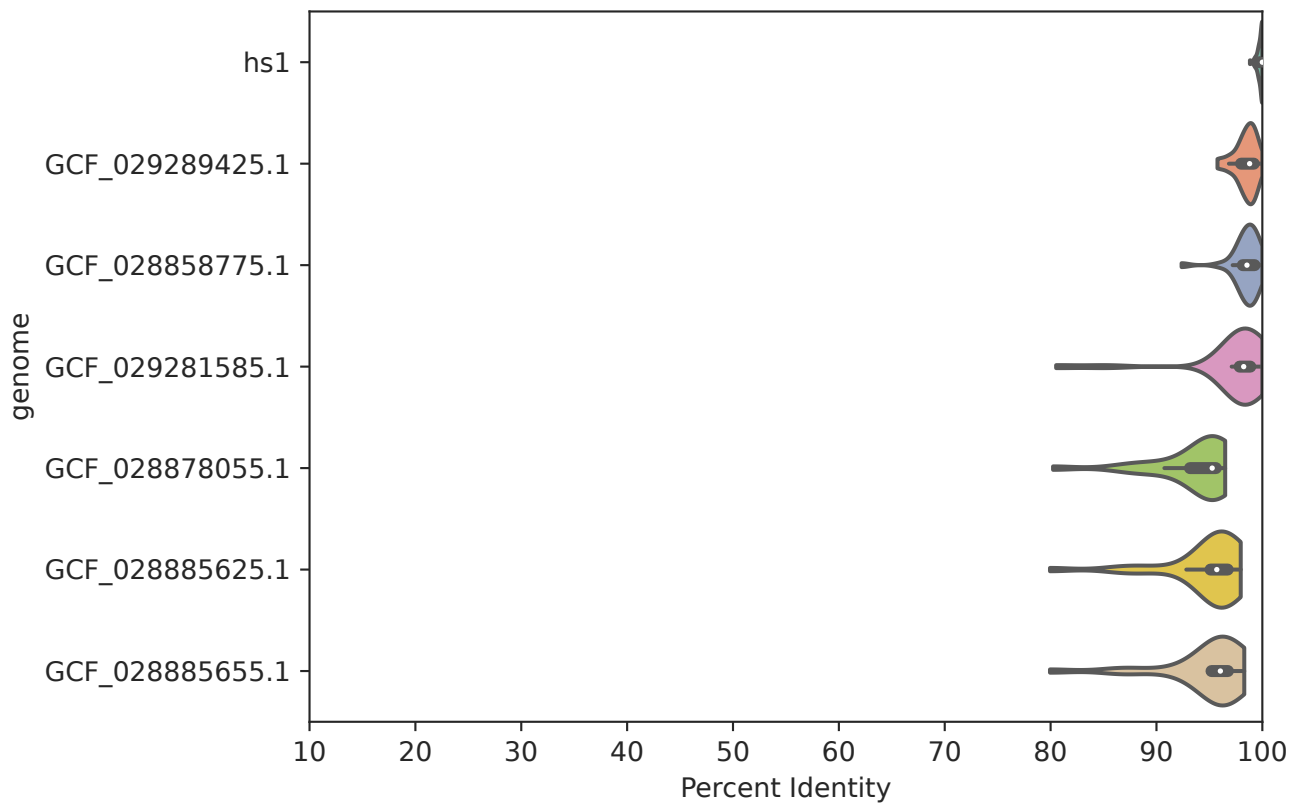

# Identity for biotype TR\_J\_pseudogene

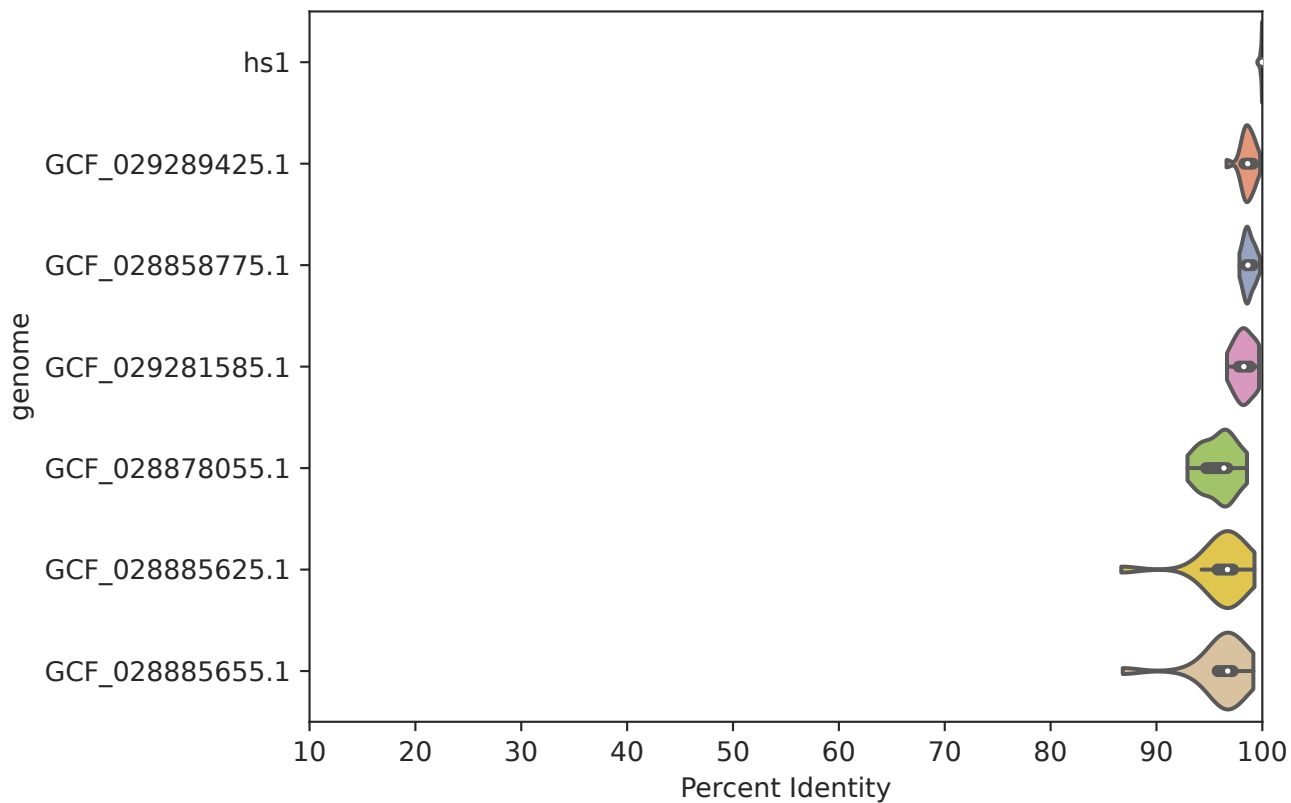

# Identity for biotype TR\_V\_gene

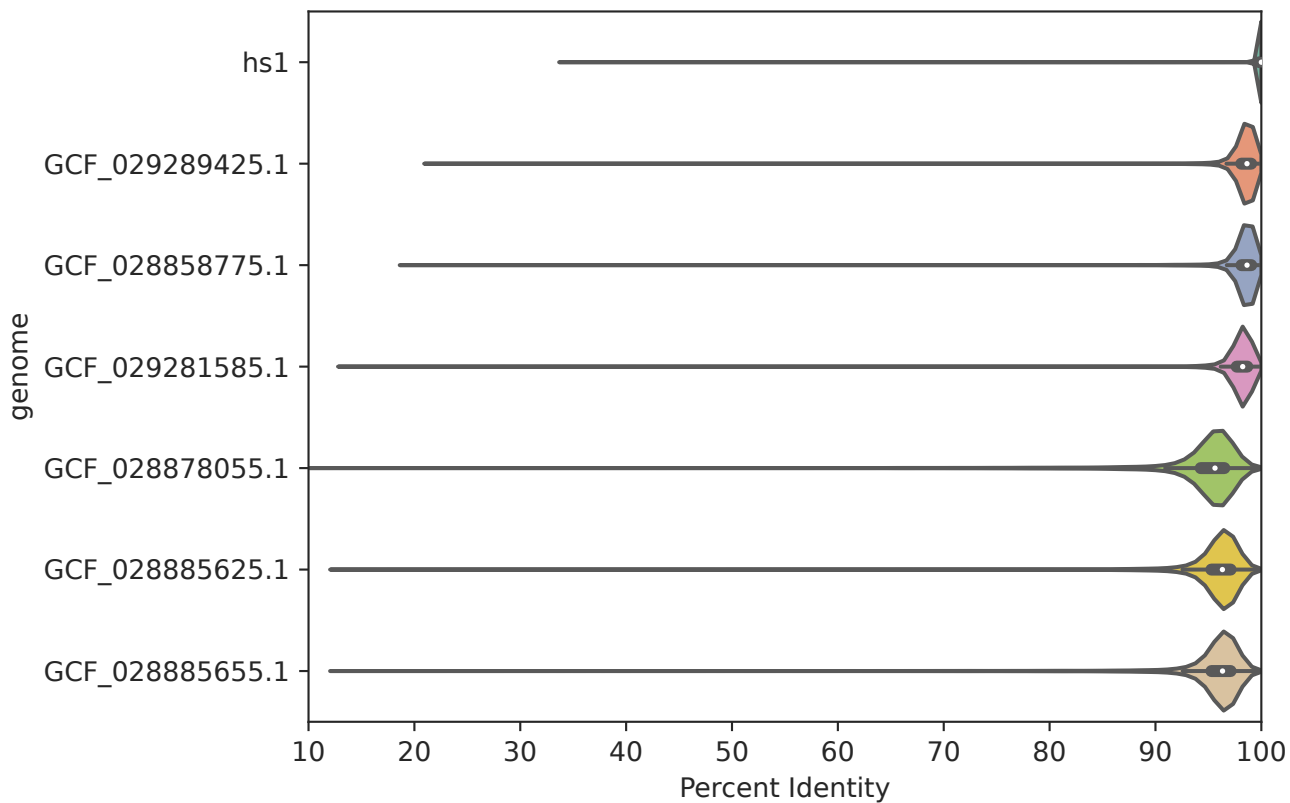

# Identity for biotype TR\_V\_pseudogene

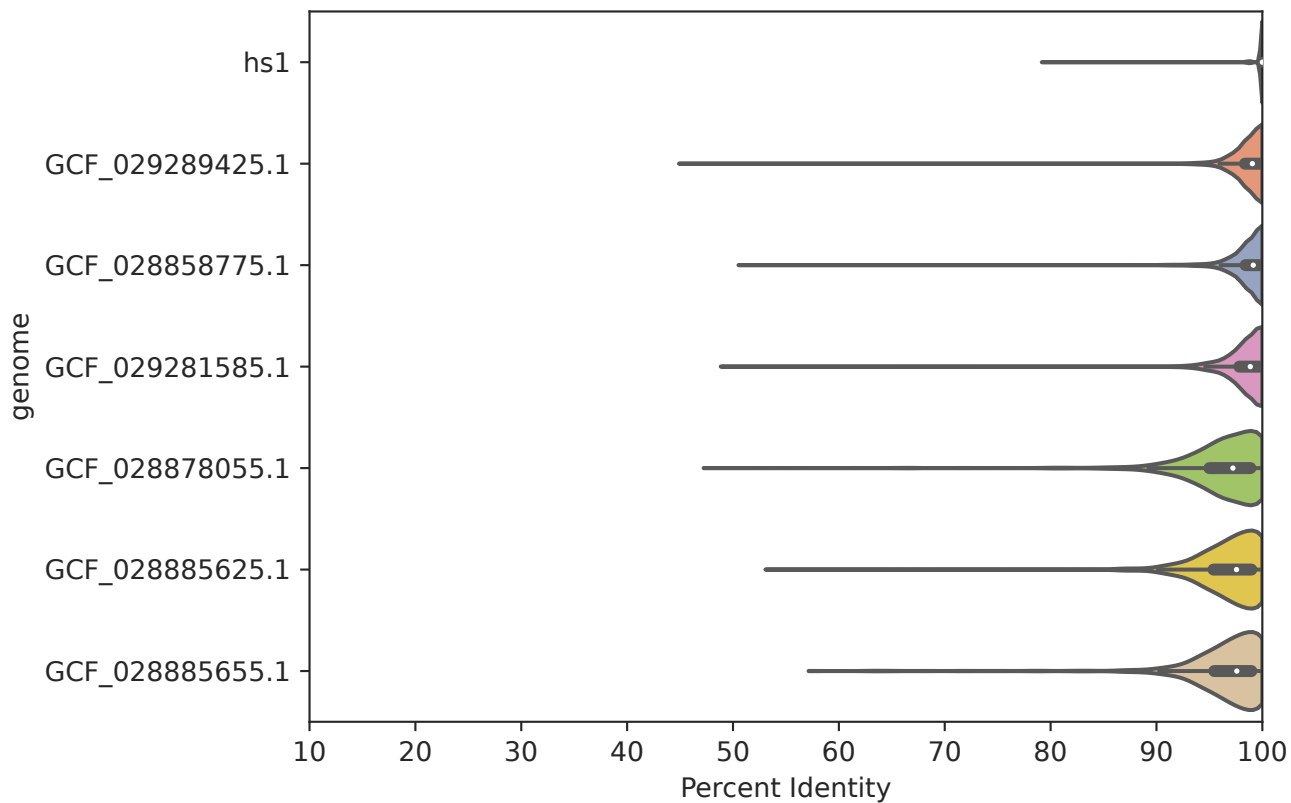

# Identity for biotype artifact

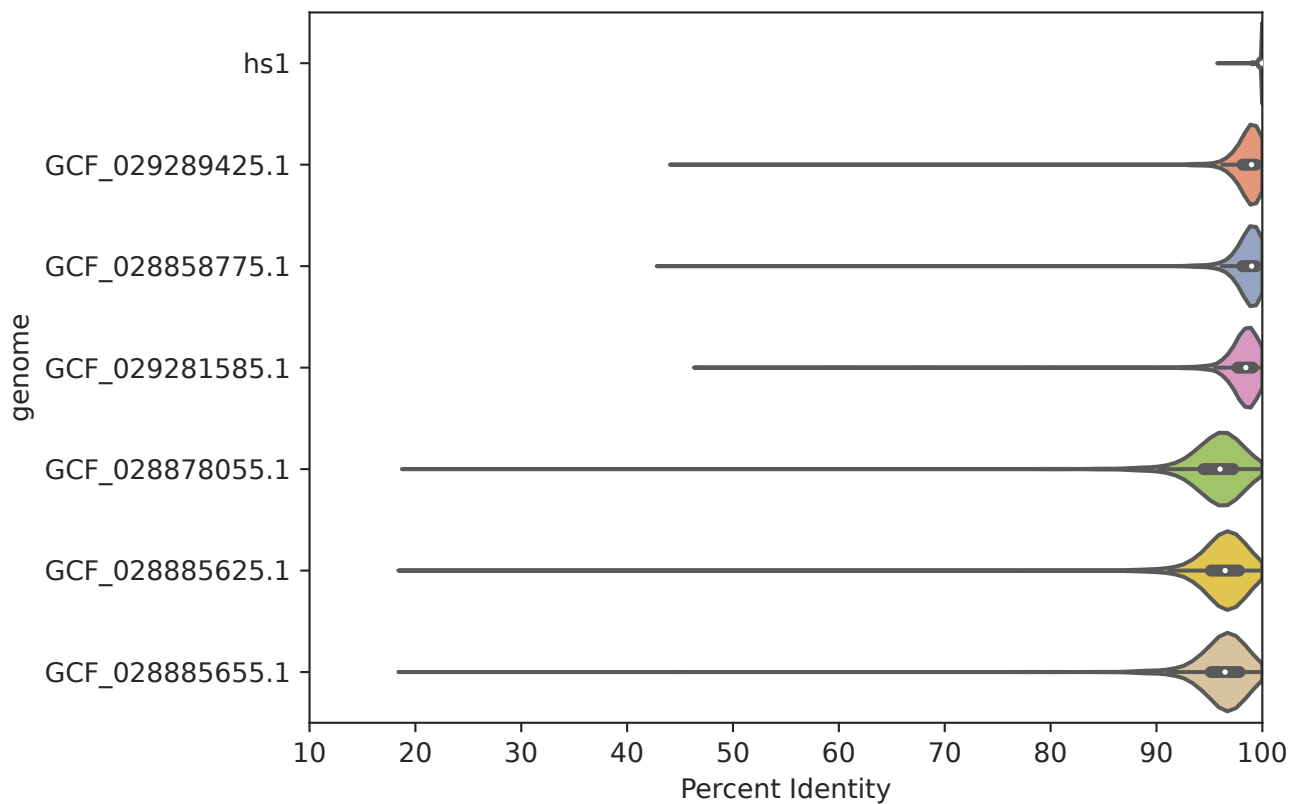

# Identity for biotype lncRNA

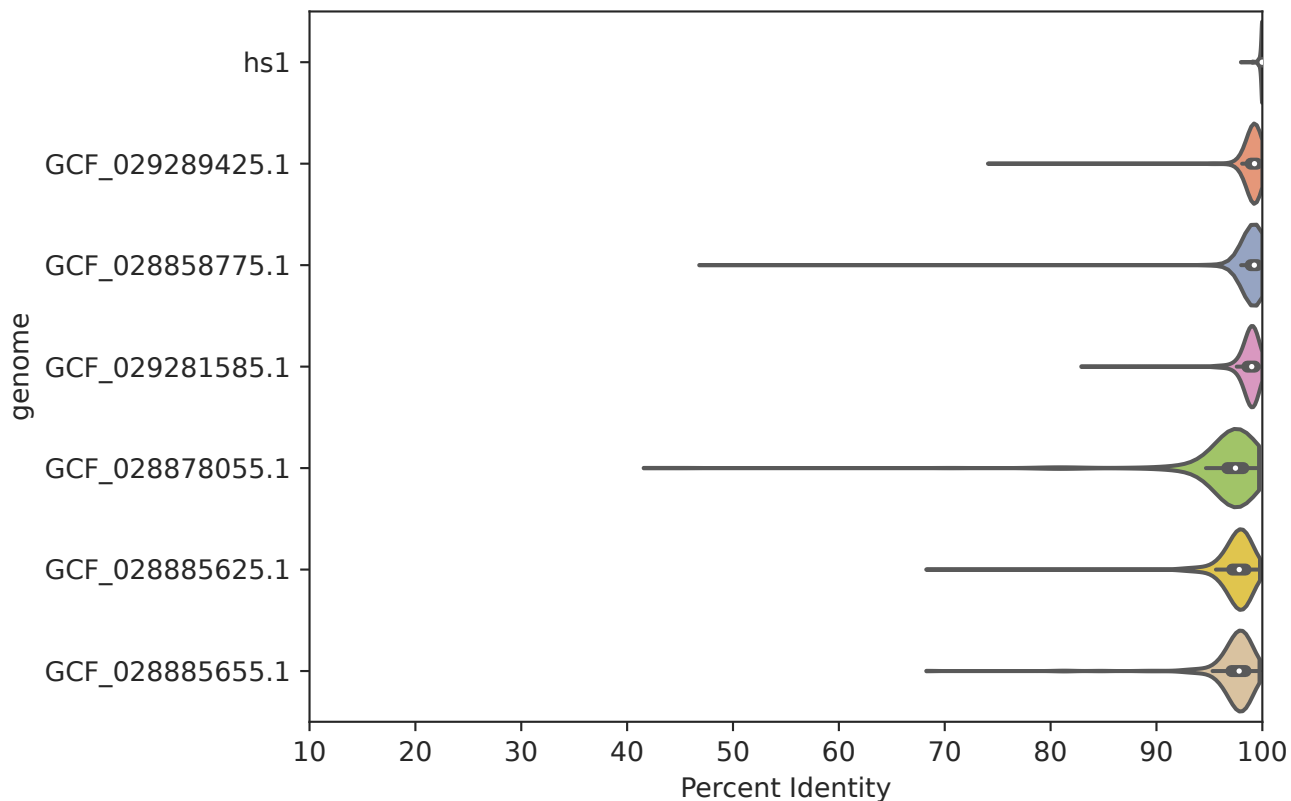

# Identity for biotype miRNA

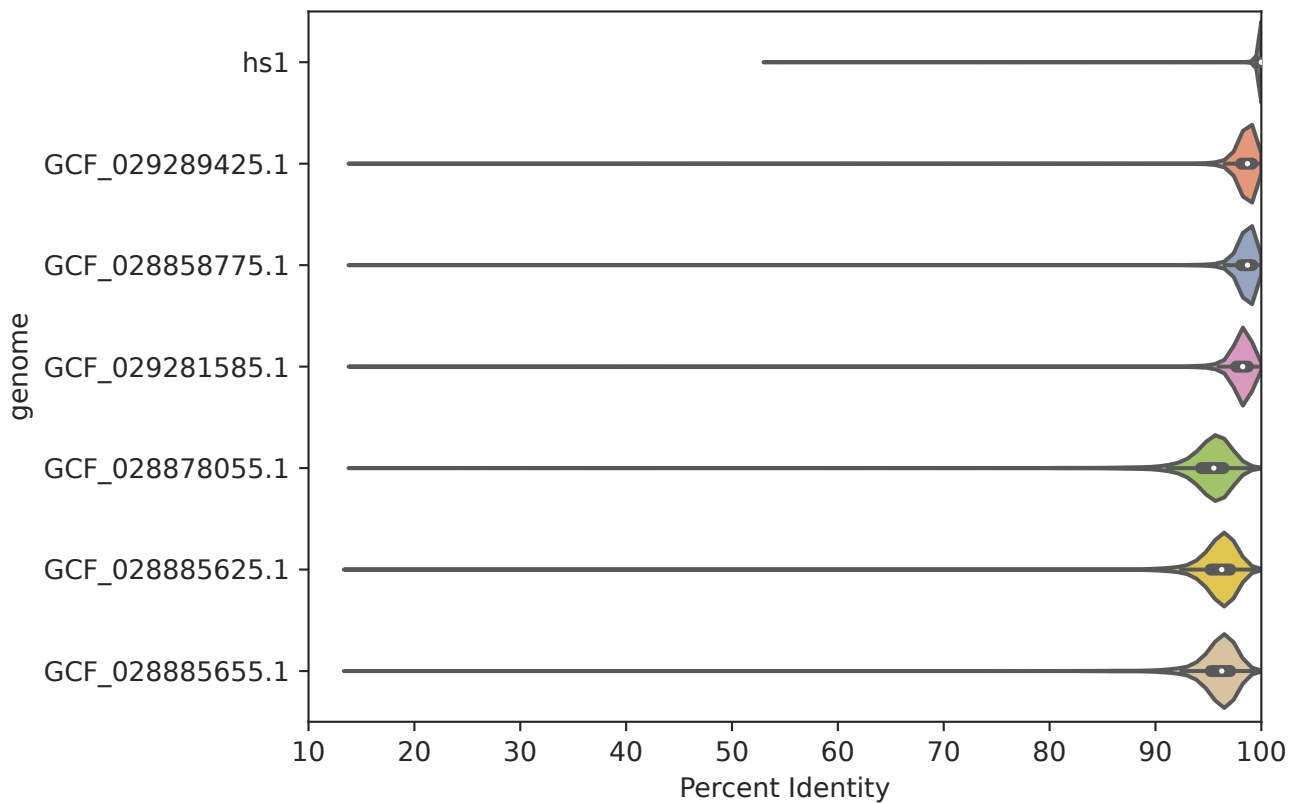

# Identity for biotype misc\_RNA

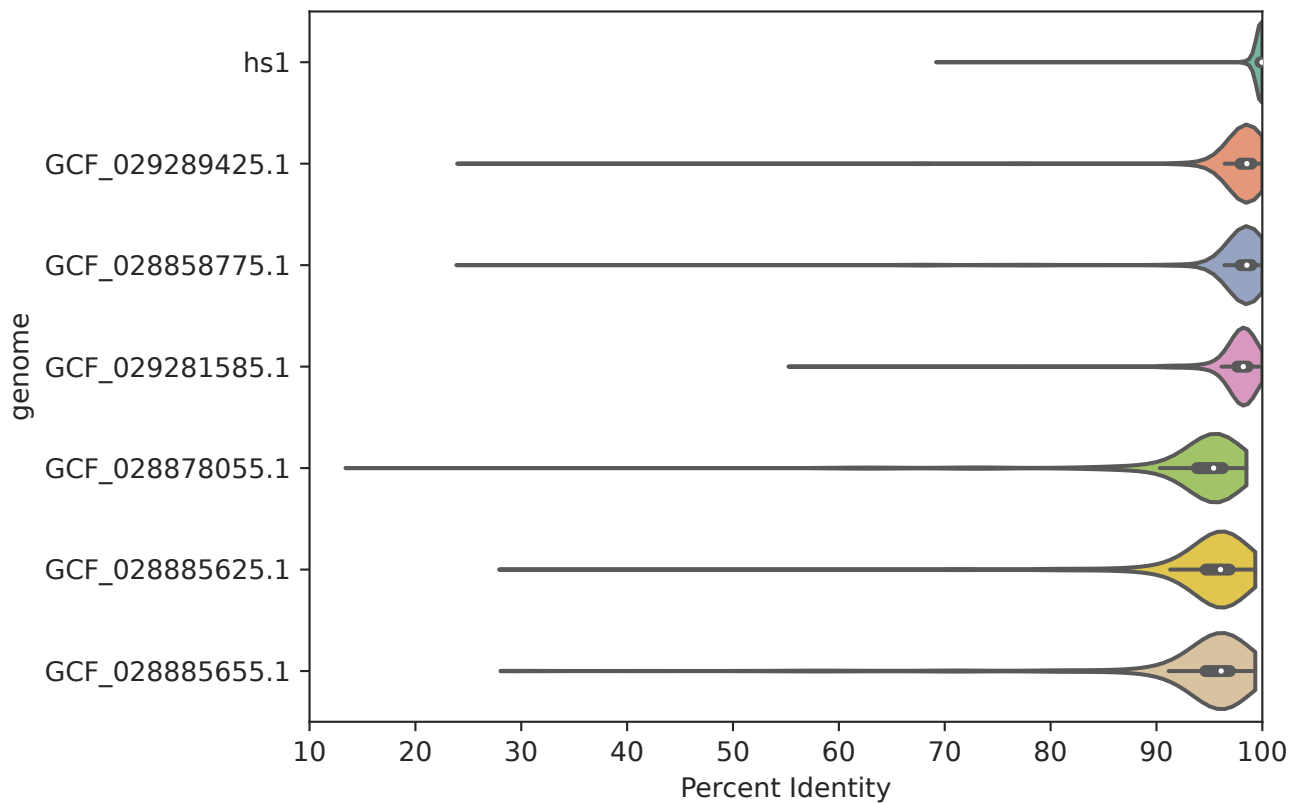

# Identity for biotype nonsense\_mediated\_decay

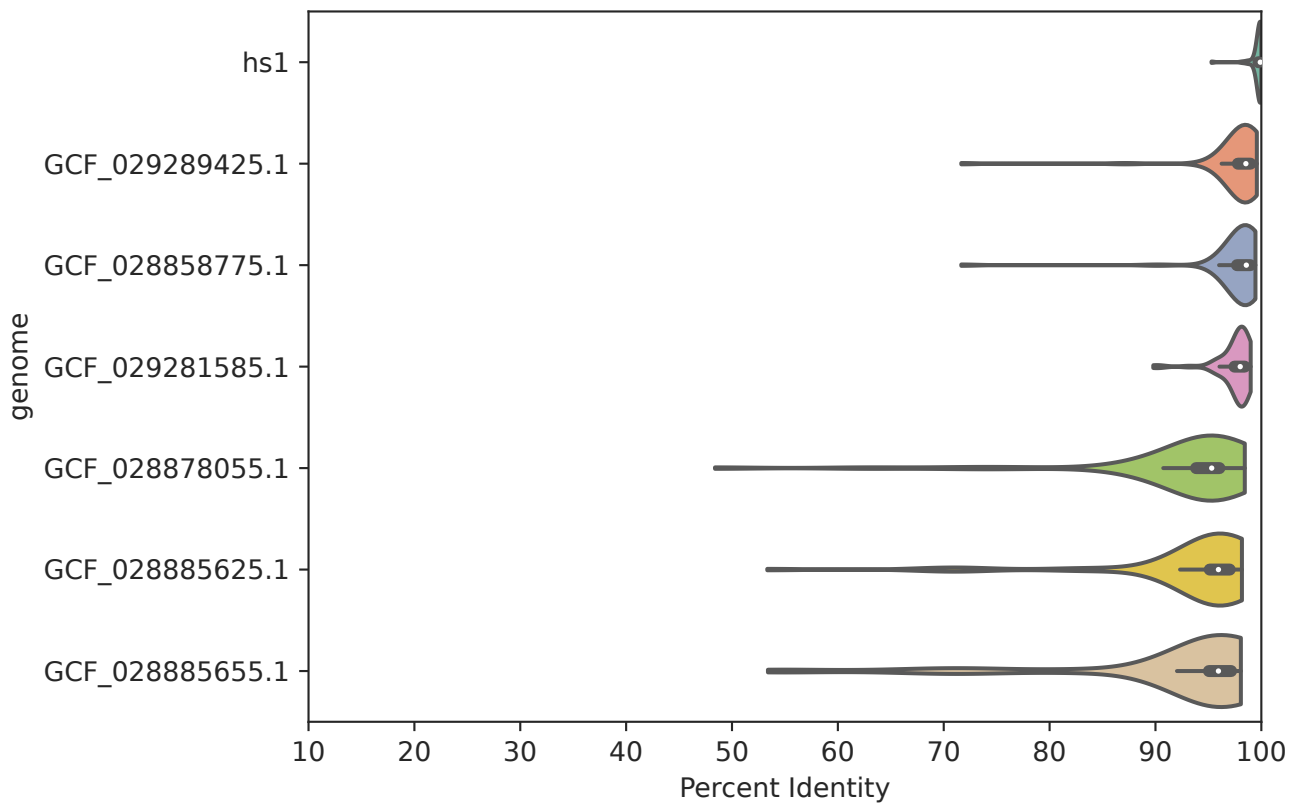

# Identity for biotype processed\_pseudogene

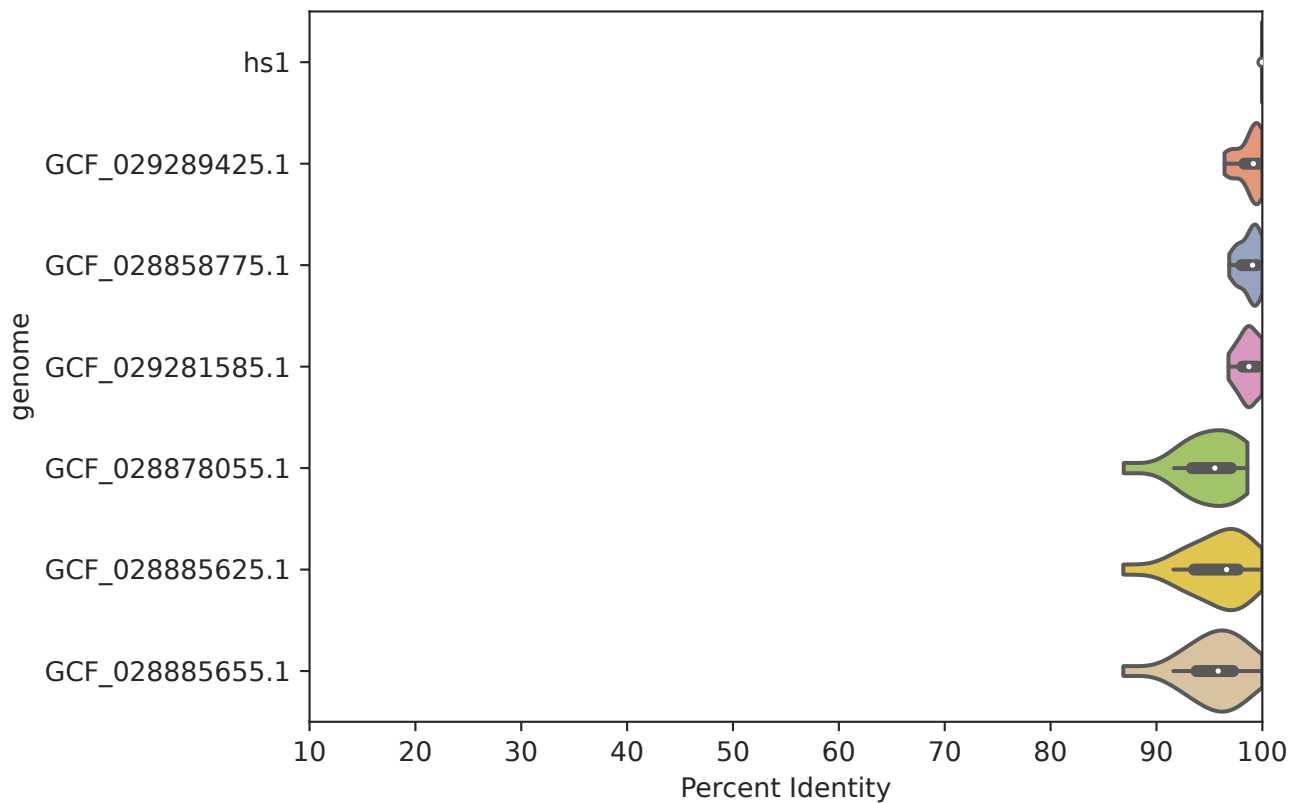

# Identity for biotype processed\_transcript

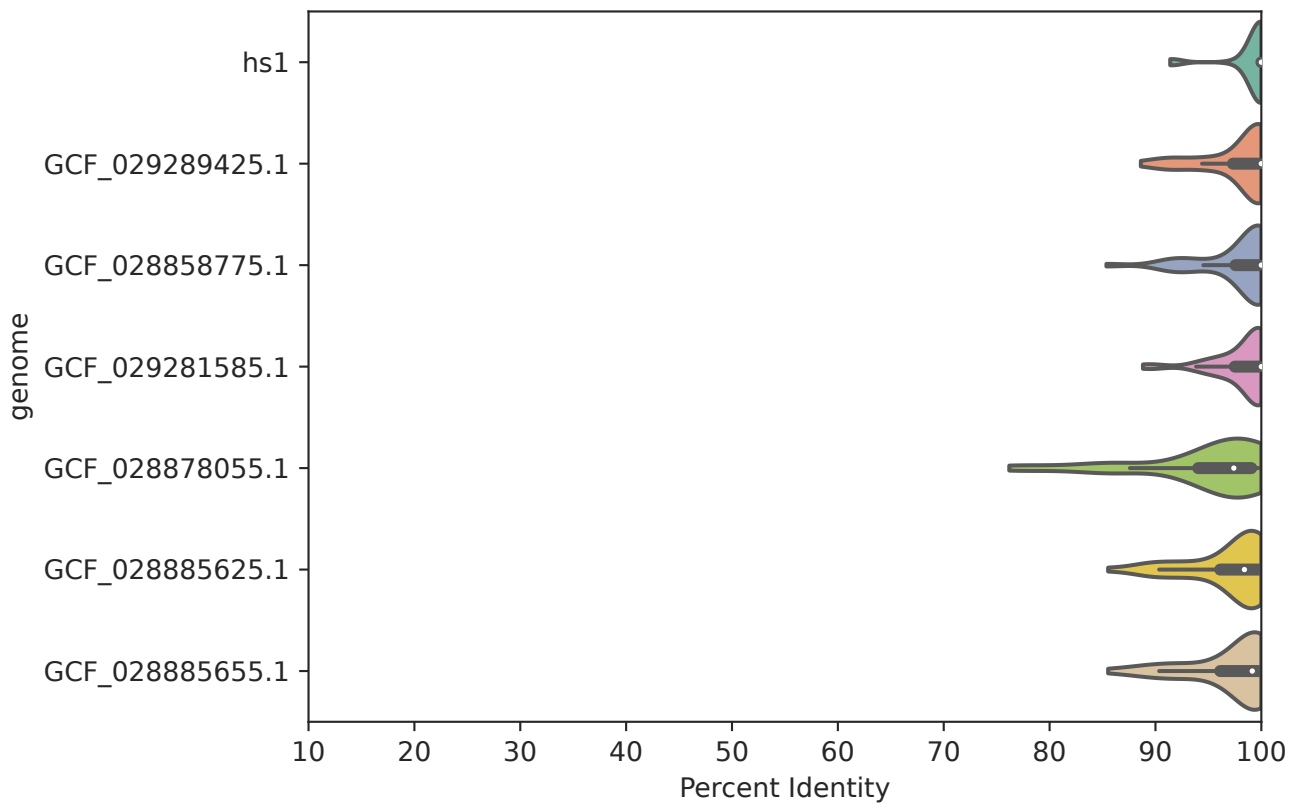

# Identity for biotype protein\_coding\_LoF

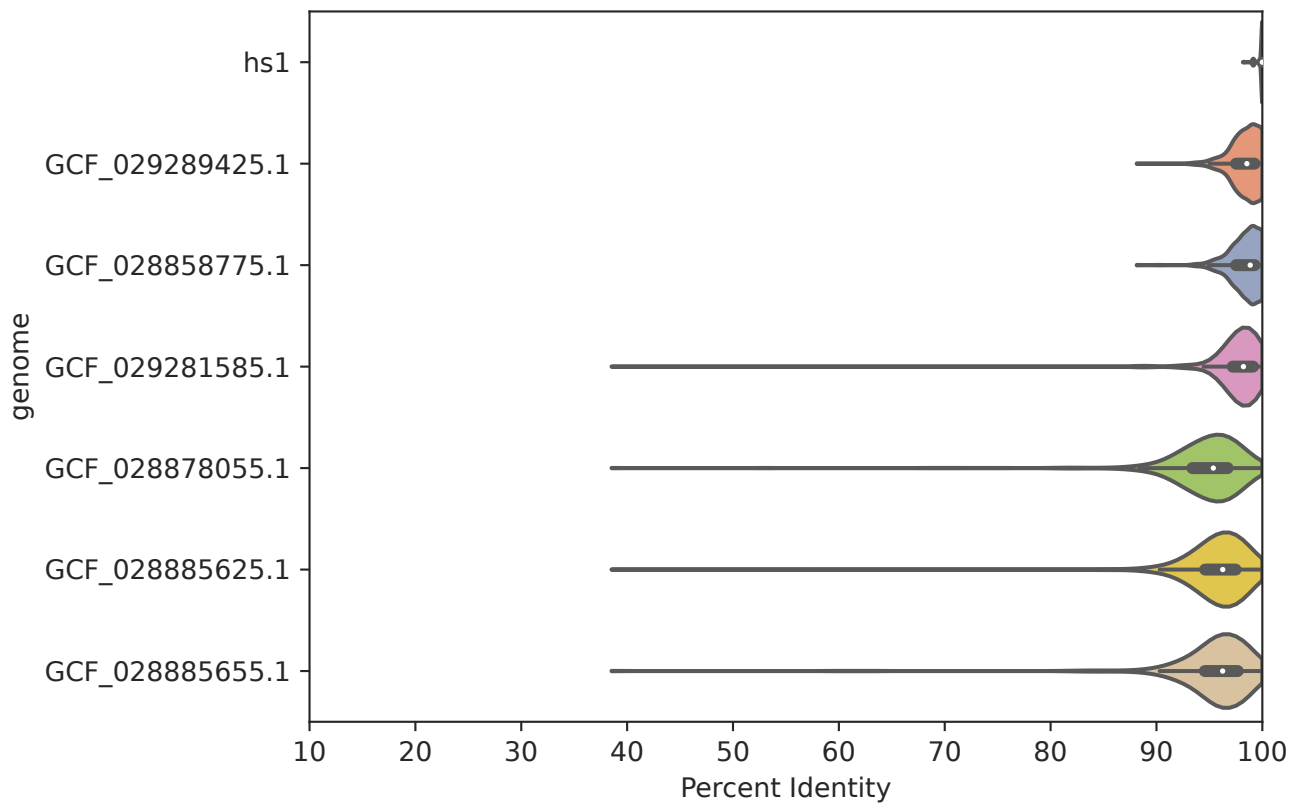

# Identity for biotype pseudogene

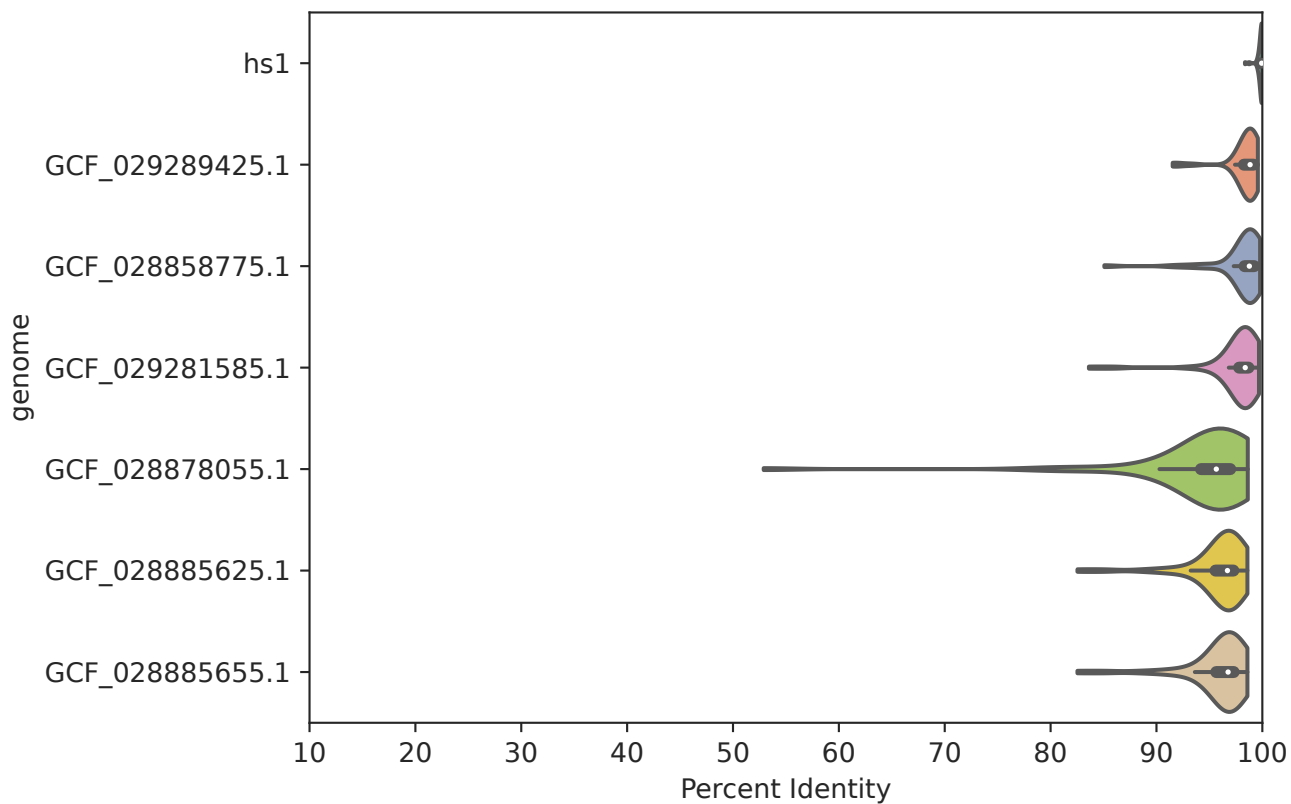

# Identity for biotype rRNA

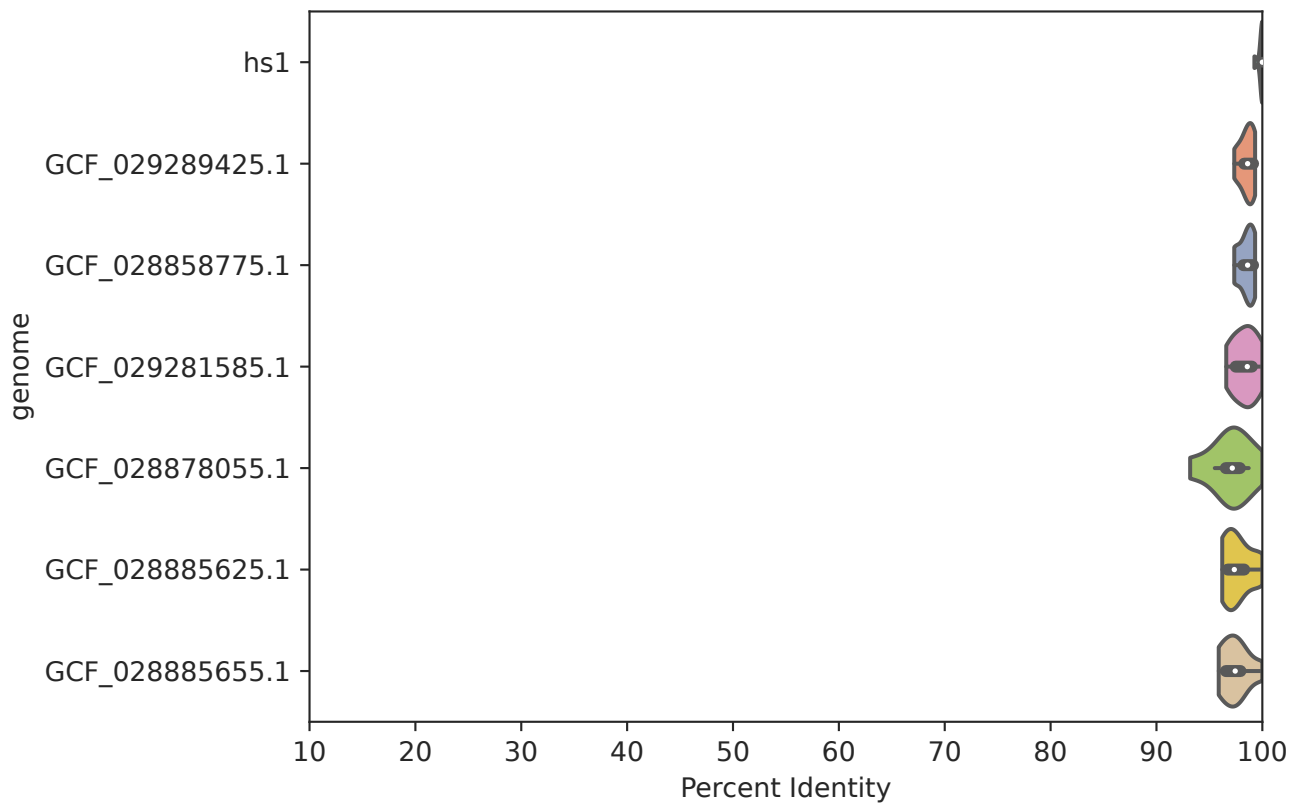

# Identity for biotype rRNA\_pseudogene

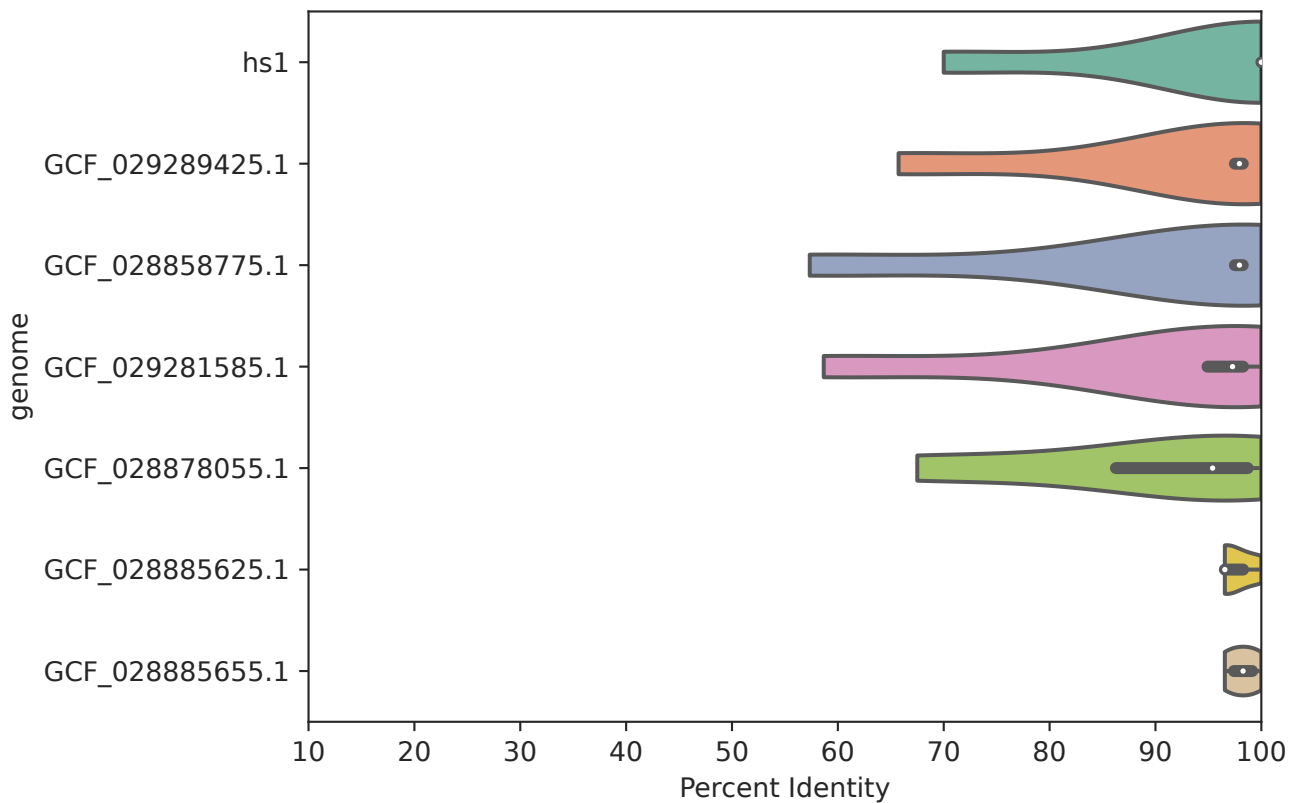

# Identity for biotype retained\_intron

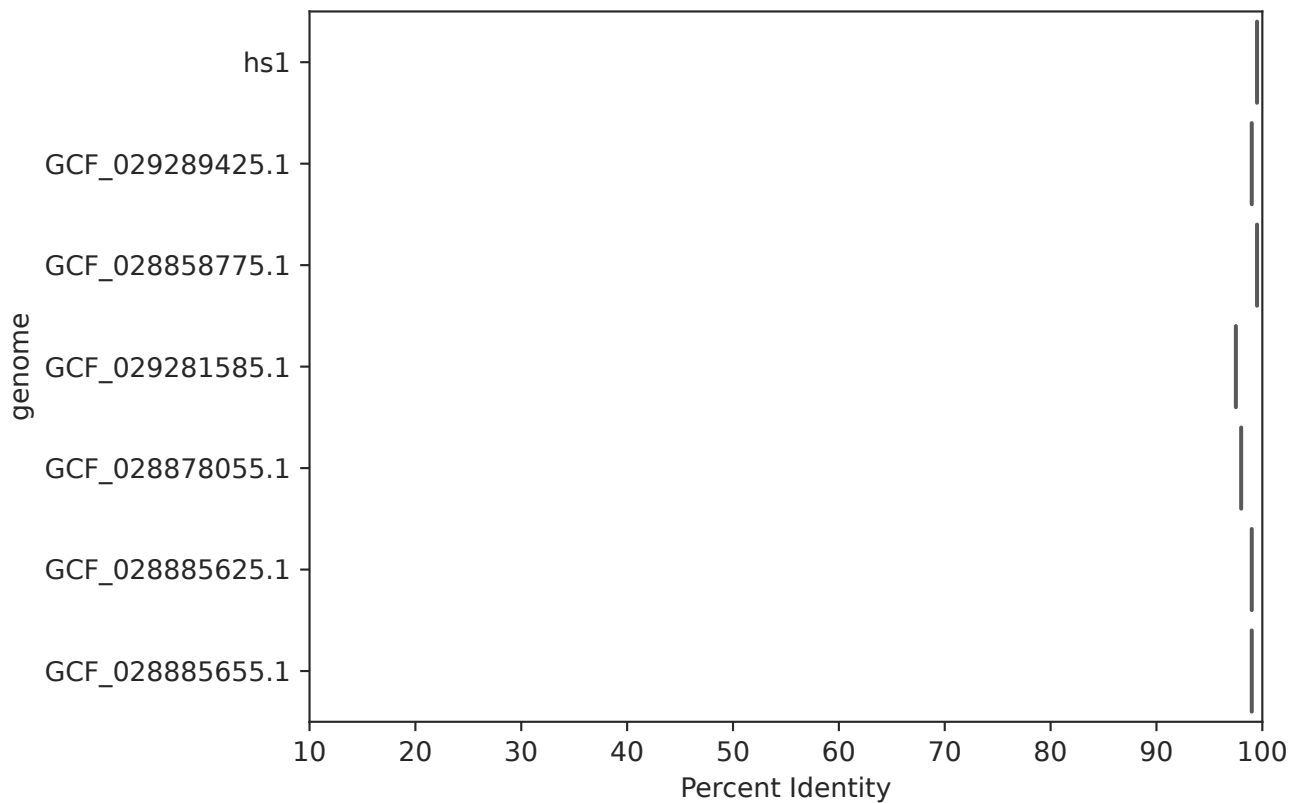

# Identity for biotype ribozyme

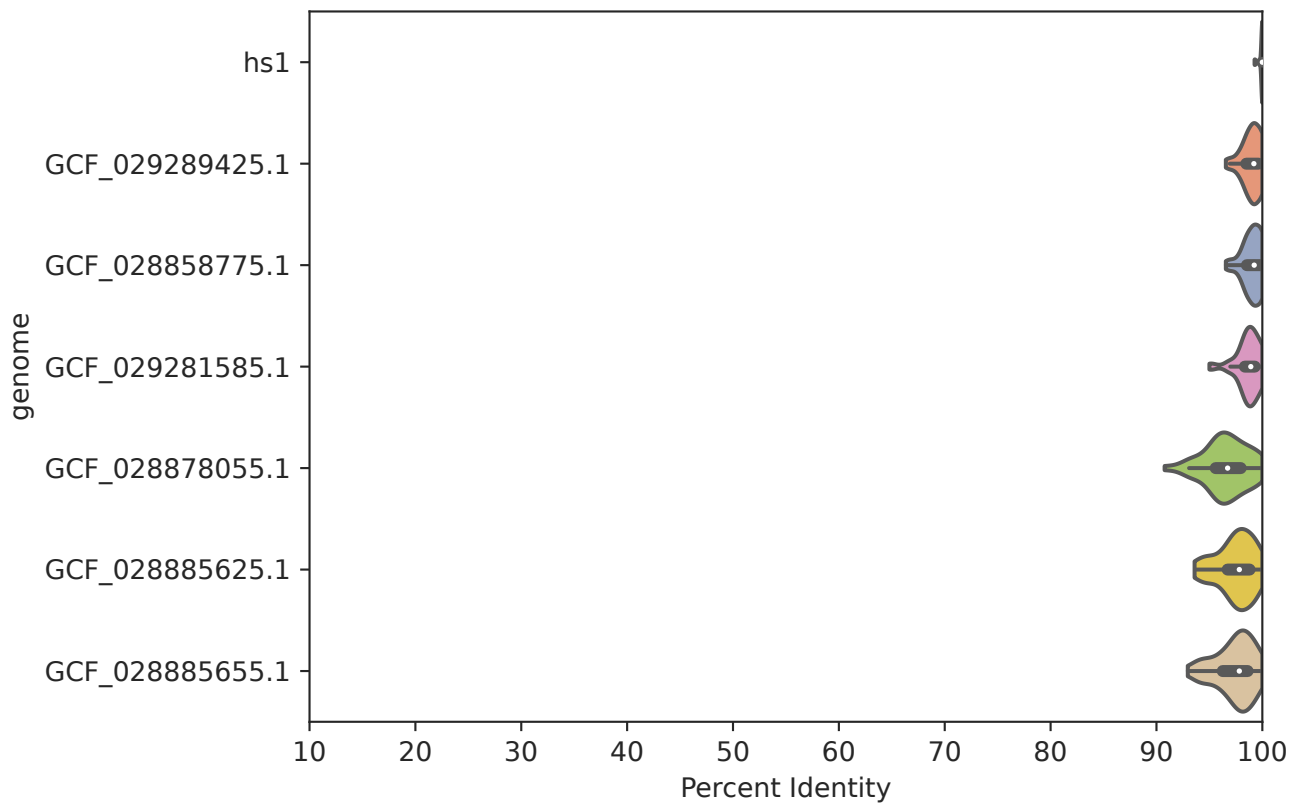

# Identity for biotype sRNA

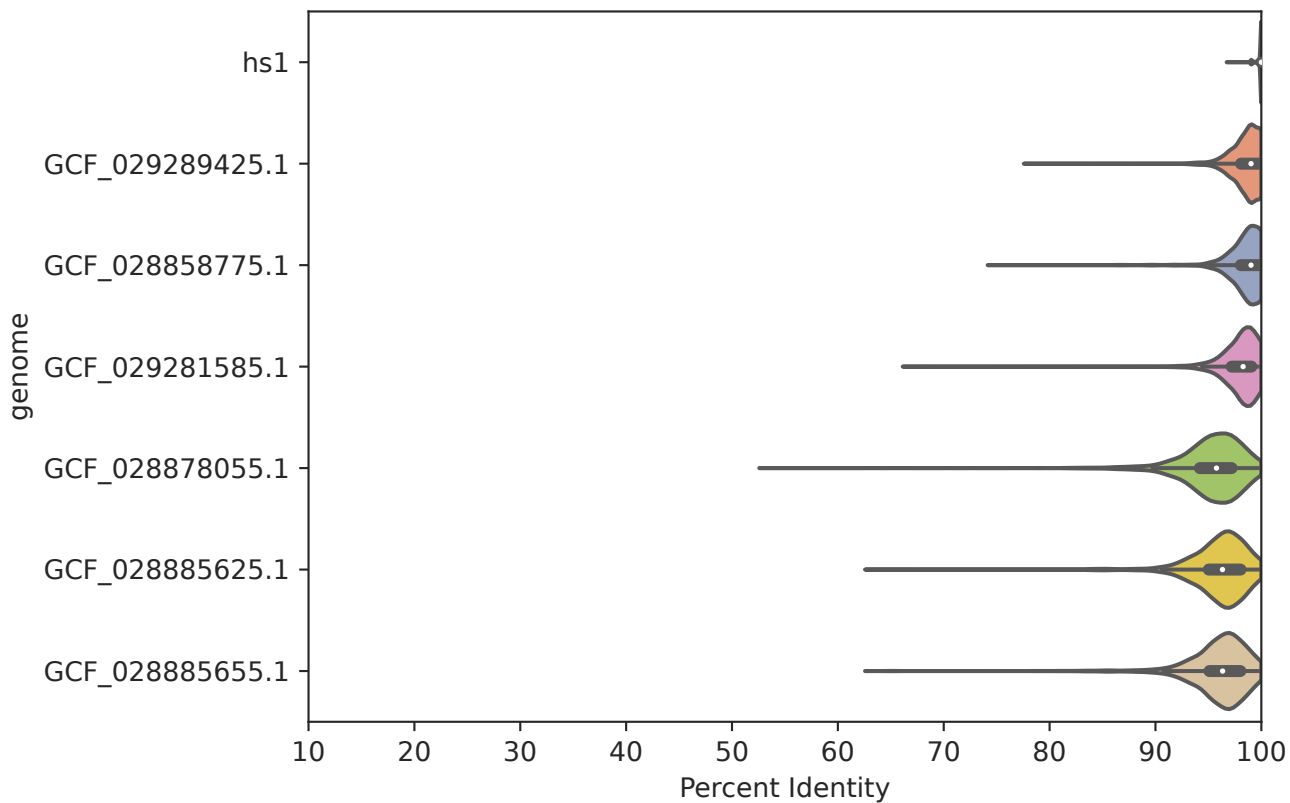

# Identity for biotype scRNA

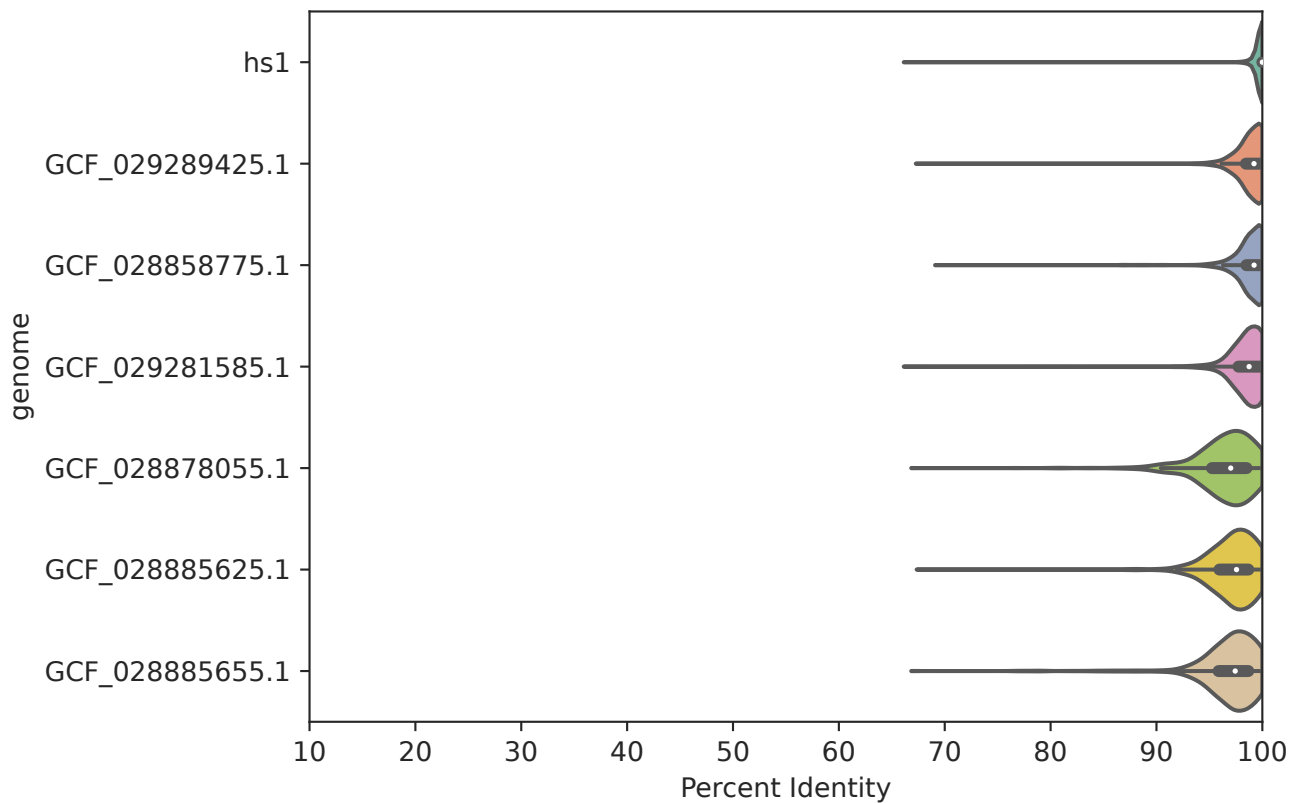

# Identity for biotype scaRNA

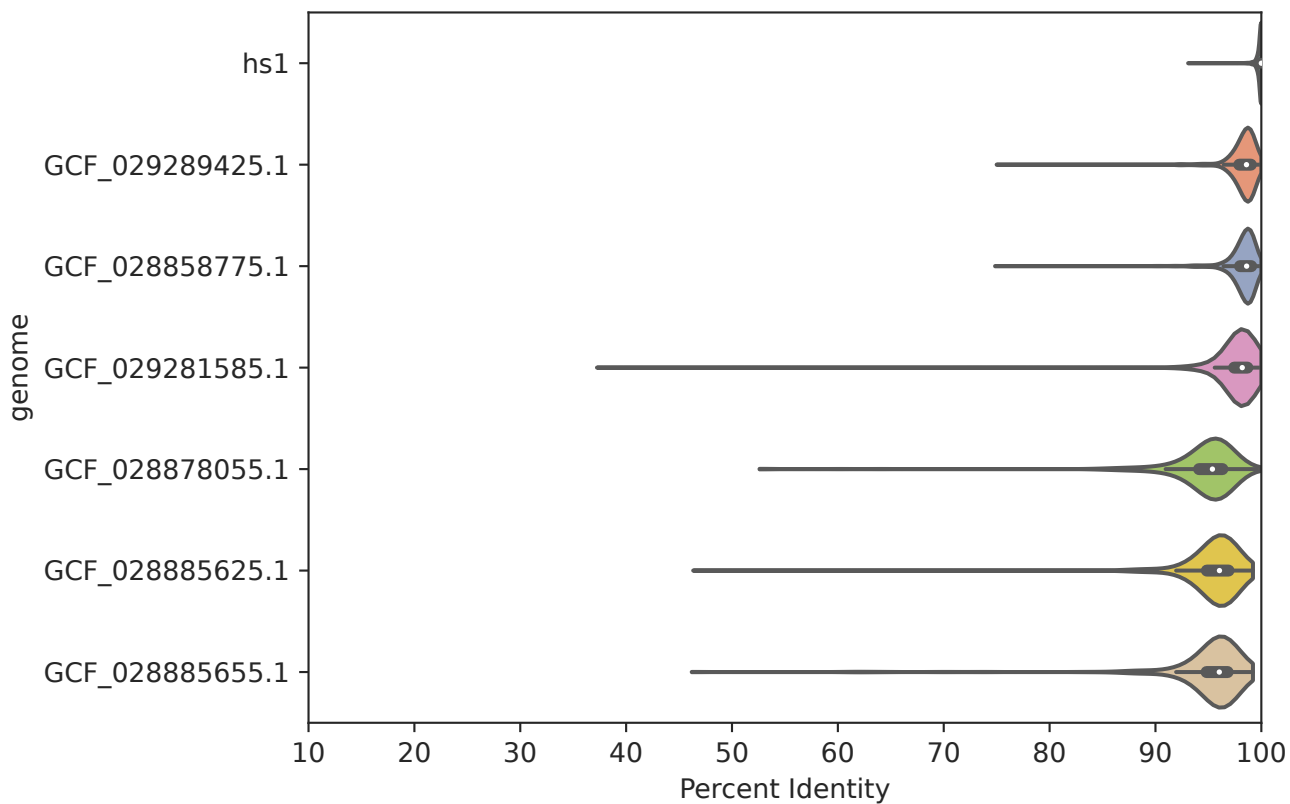

# Identity for biotype snRNA

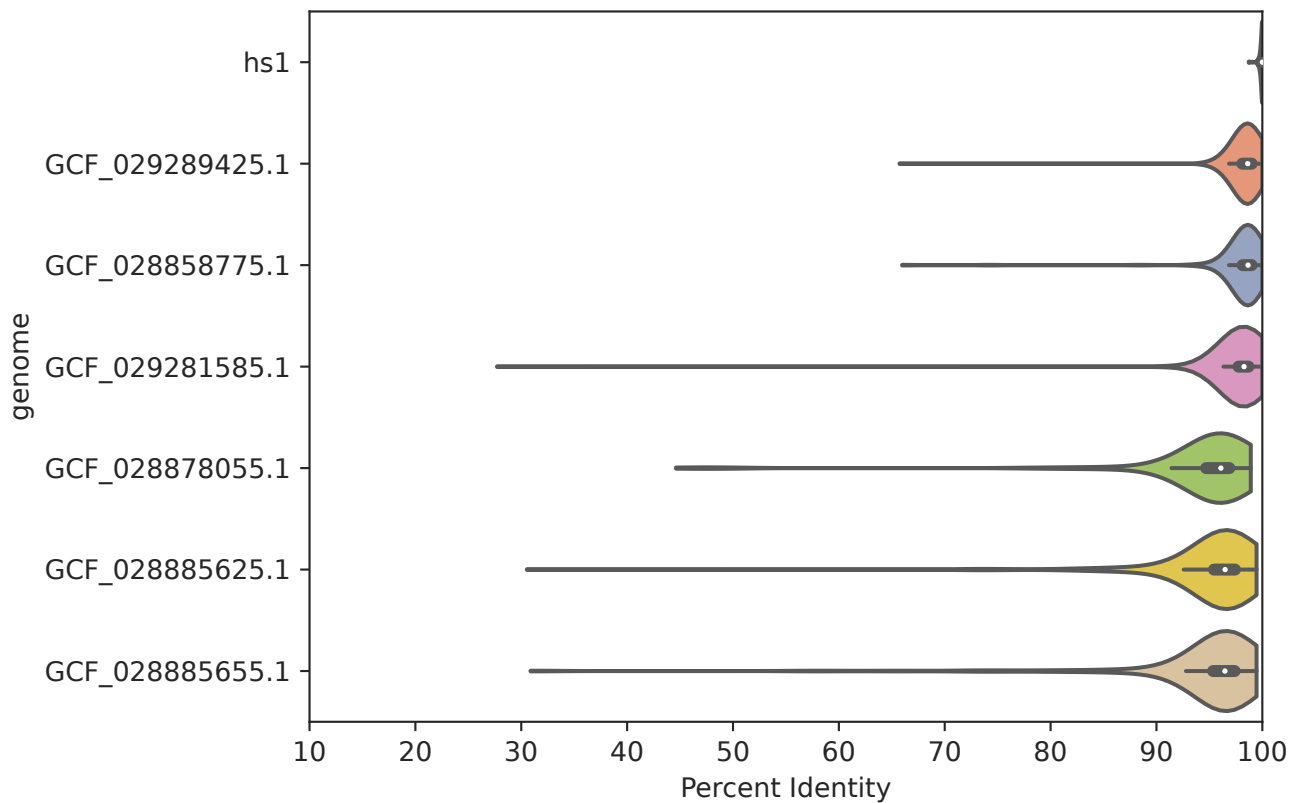

# Identity for biotype snoRNA

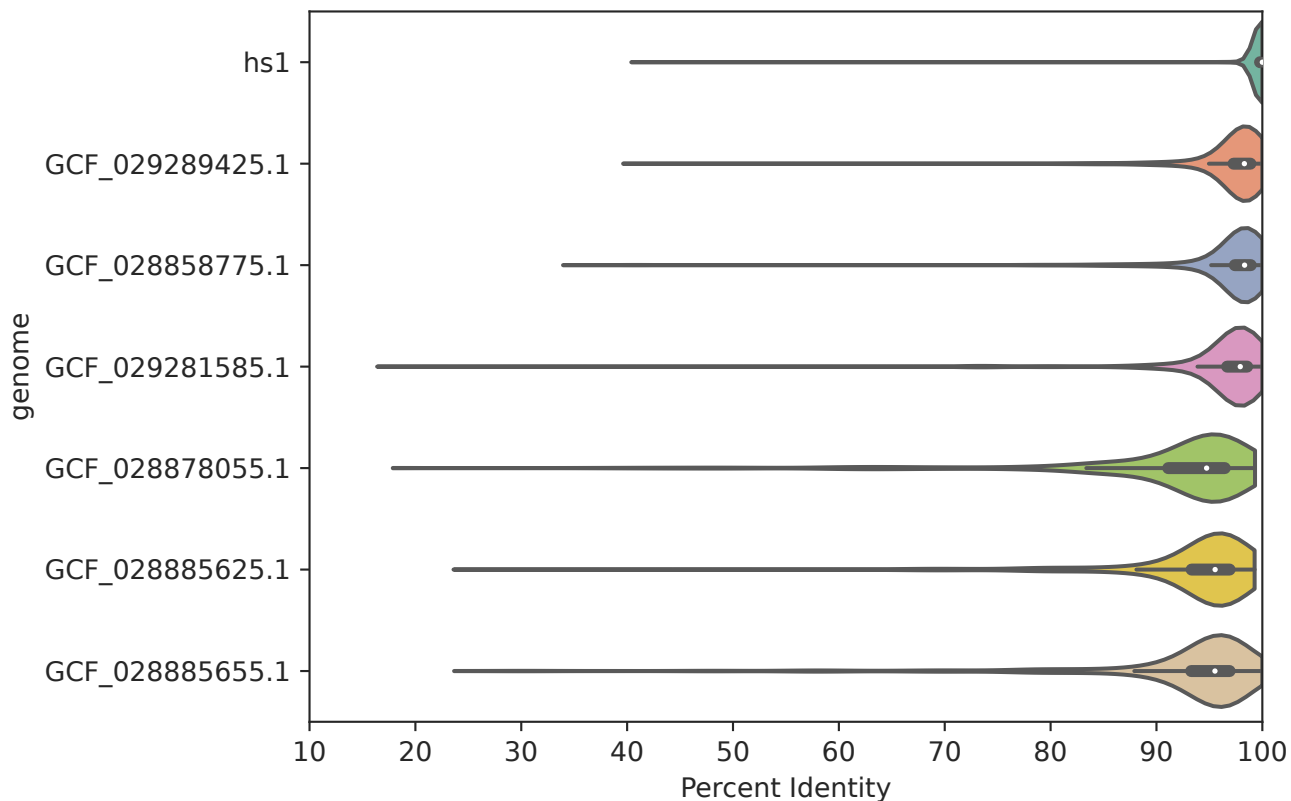

# Identity for biotype transcribed\_pseudogene

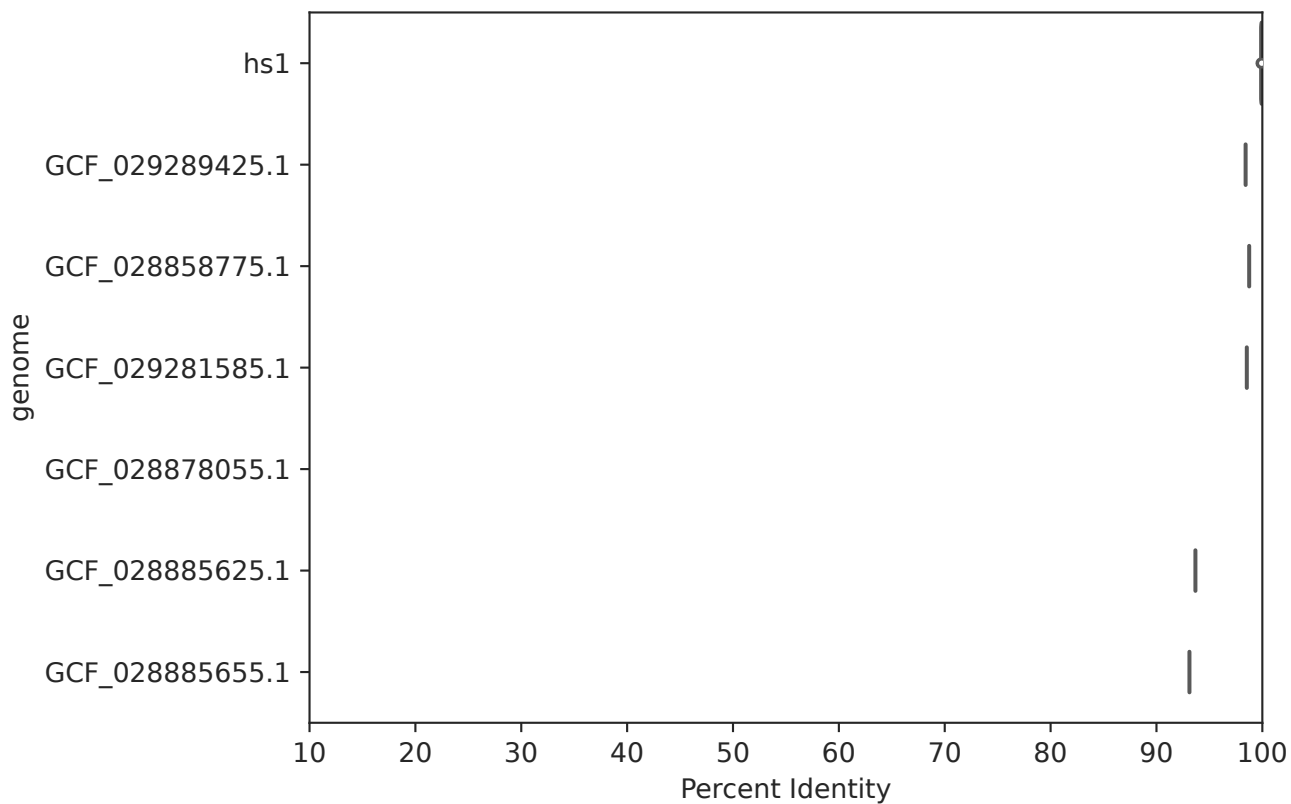

# Identity for biotype transcribed\_unitary\_pseudogene

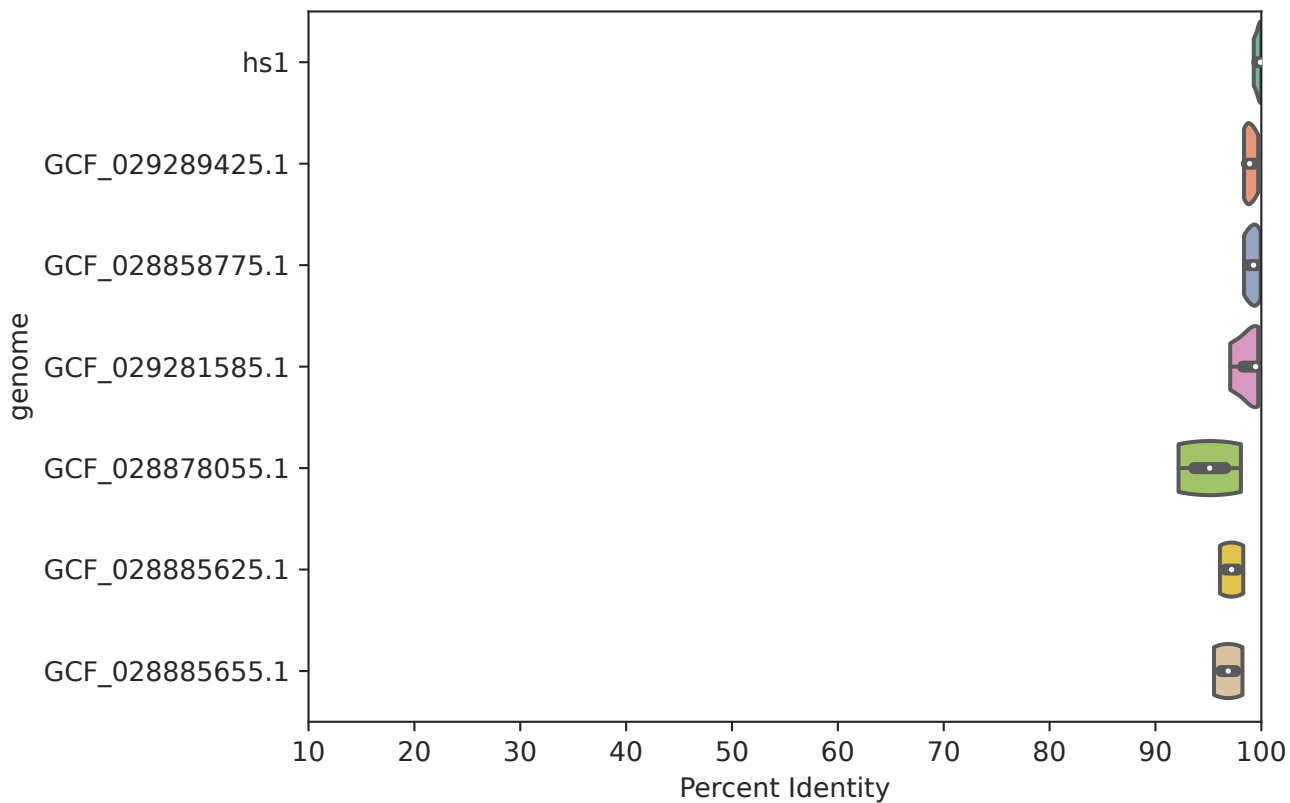

# Identity for biotype transcribed\_unprocessed\_pseudogene

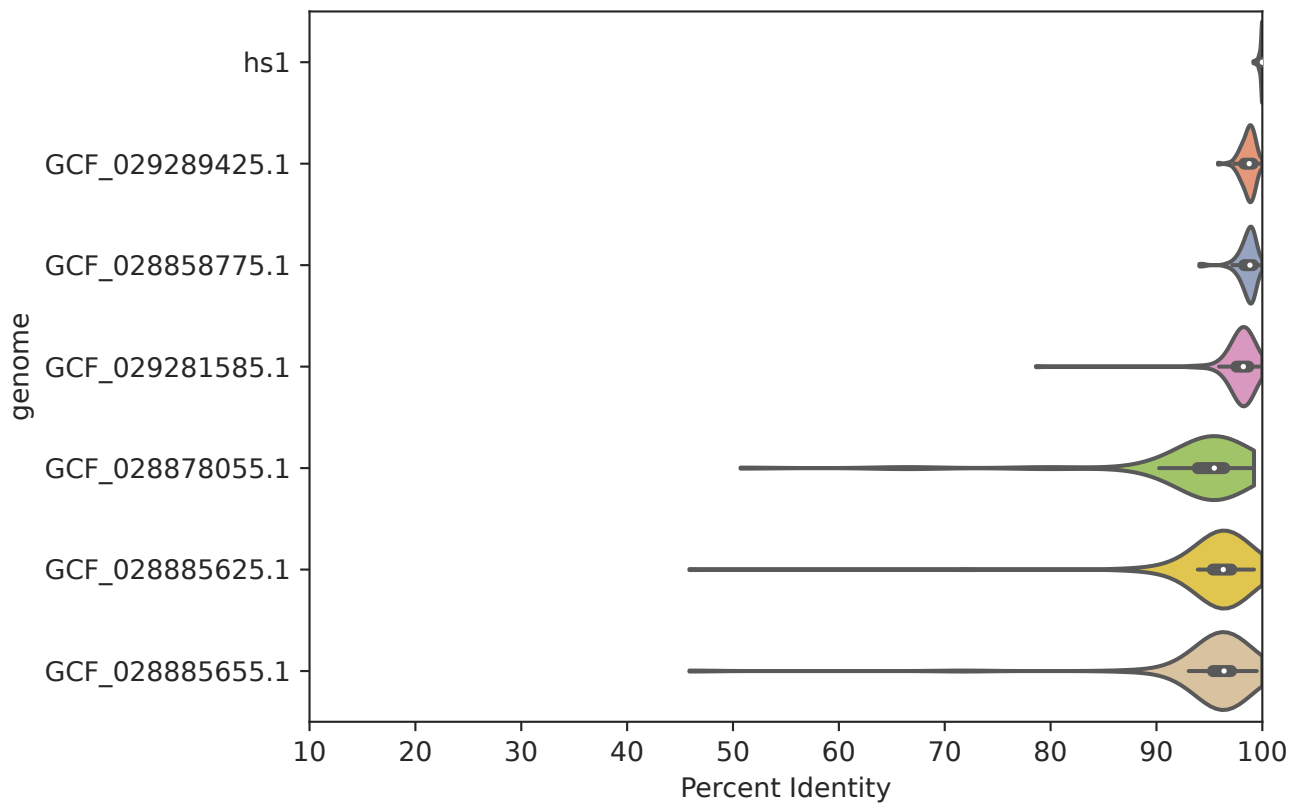

# Identity for biotype translated\_pseudogene

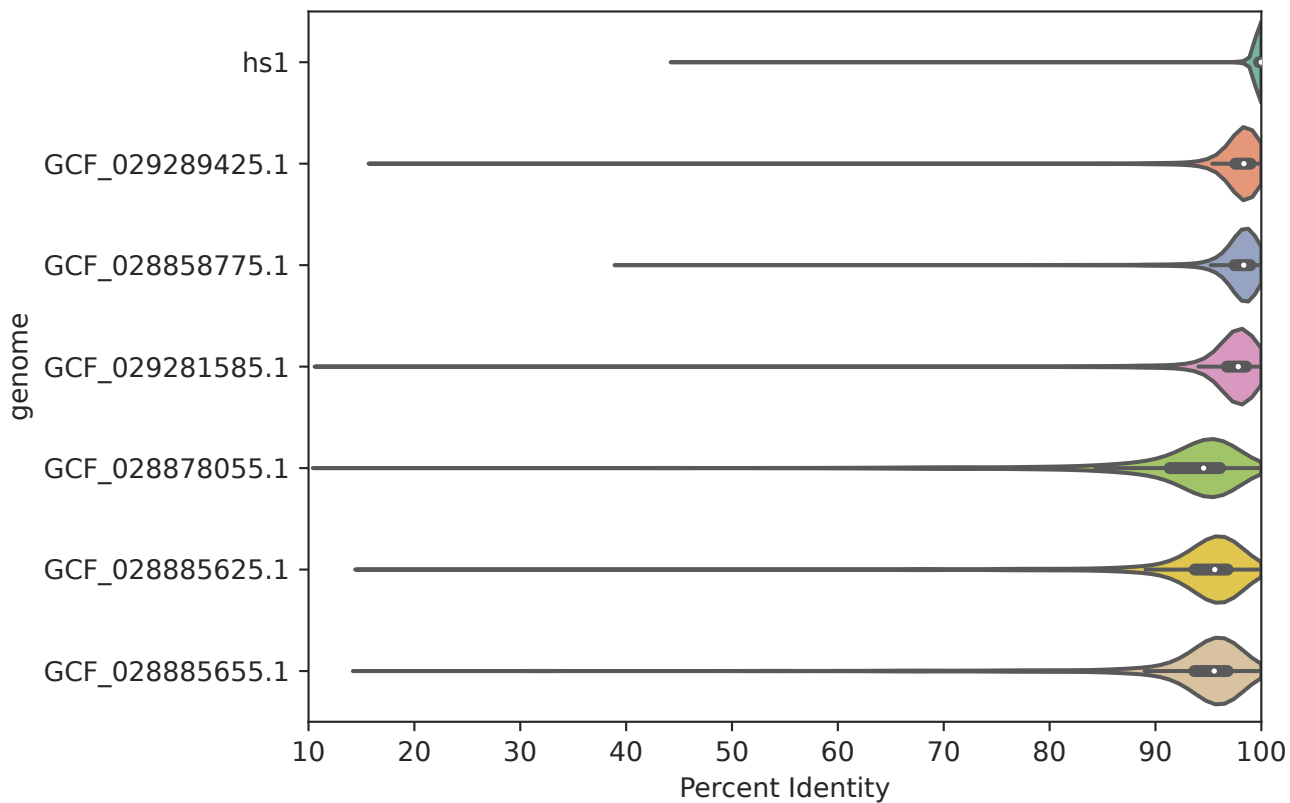

# Identity for biotype translated\_unprocessed\_pseudogene

# Identity for biotype unitary\_pseudogene

# Identity for biotype unprocessed\_pseudogene

# Identity for biotype vault\_RNA
